The Hitler Fact:

The Hitler of History John Lukacs, 2011-04-06 In this brilliant strikingly original book historian John Lukacs delves to the core of Adolf Hitler's life and mind by examining him through the lenses of his surprisingly diverse biographers Since 1945 there have been more than one hundred biographies of Hitler and countless other books on him and the Third Reich What happens when so many people reinterpret the life of a single individual Dangerously the cumulative portrait that begins to emerge can suggest the face of a mythic antihero whose crimes and errors blur behind an aura of power and conquest By reversing the process by making Hitler's biographers rather than Hitler himself the subject of inquiry Lukacs reveals the contradictions that take us back to the true Hitler of history Like an attorney Lukacs puts the biographies on trial He gives a masterly account of all the major works and of the personalities methods and careers of the biographers one cannot separate the historian from his history particularly in this arena he looks at what is still not known and probably never will be about Hitler he considers various crucial aspects of the real Hitler and he shows how different biographers have either advanced our understanding or gone off track By singling out those who have been involved in or co-opted into an implicit rehabilitation of Hitler Lukacs draws powerful conclusions about Hitler's essential differences from other monsters of history such as Napoleon Mussolini and Stalin and equally important about Hitler's place in the history of this century and of the world

Hitler's Millennial Reich David Redles,2008-11-01 A brilliant study of the convergence of apocalyptic anxiety and authoritarianism in Germany A story unfortunately of continuing relevance Charles B Strozier author of Apocalypse On the Psychology of Fundamentalism in America After World War I German citizens sought not merely relief from the political economic social and cultural upheaval that wracked Weimar Germany but also mental salvation With promises of order prosperity and community Adolph Hitler fulfilled a profoundly spiritual need on behalf of those who converted to Nazism and thus became not only Führer but Messiah contends David Redles who believes that millenarian sentiment was central to the

rise of Nazism As opposed to many works which depersonalize Nazism by focusing on institutional factors Redles offers a fresh view of the impact and potential for millenarian movements The writings of both major and minor Nazi party figures in which there echoes a striking religiosity and salvational faith reveal how receptive Germans were to the notion of a millennial Reich such as that offered by Hitler Redles illustrates how Hitler s apocalyptic prophecies of a coming final battle with the so called Jewish Bolsheviks one that was conceived to be a war of annihilation was transformed into an equally eschatological Final Solution Redles has done an extraordinarily careful and brilliant analysis of the archival material to reveal Hitler s messianic charisma his appeal both on the ideological and psychological level illustrating that if you can convince people that they live in apocalyptic times and you have the key to their collective salvation you can get them to do anything Richard Landes Director Center for Millennial Studies Department of History Boston University **The Ultimate World War Two Trivia Book: Unbelievable Facts, Extraordinary Accounts and Tall Tales from the Second World War** M.
