

The Hollow Mountains

Geoffrey Winthrop Young

The Hollow Mountains:

The Hollow Mountains Oliver B. Patton, 1977 *Report of the Exploring Expedition to the Rocky Mountains in the Year 1842* John Charles Frémont, 1845 [100 Hikes in the Great Smoky Mountains National Park](#) Russ Manning, 1999 If you're heading to the Smokies you'll need this guidebook. All the trails, camping information, and best attractions for visitors of Great Smoky Mountain National Park. This guidebook offers a mix of day hikes and overnight backpacking trails and expanded natural history and background information on the Smoky Mountains, making it the most complete guidebook to the region. Divided into sections covering Tennessee and North Carolina, the guide is arranged so that all of the Tennessee trails can be done with a link via the Newfound Gap Road to the North Carolina trails and vice versa. All trails are grouped by access point, and each hiking description includes mileage, elevation change, difficulty rating, camping information, cautions, links to other trails, and attractions. Special lists cover the best waterfalls, stands of old growth forest, historic structures, wildflower spots, and mountain views. Additional chapters feature information on geology, flora, and fauna, park history, and more.

John of the Mountains John Muir, 1979 John Muir, America's pioneer conservationist and father of the national park system, was a man of considerable literary talent. As he explored the wilderness of the western part of the United States for decades, he carried notebooks with him, narrating his wanderings, describing what he saw, and recording his scientific researches. This reprint of his journals, edited by Linnie Marsh Wolfe in 1938 and long out of print, offers an intimate picture of Muir and his activities during a long and productive period of his life. The sixty extant journals and numerous notes in this volume were written from 1867 to 1911. They start seven years after the time covered in *The Story of My Boyhood and Youth*. Muir's uncompleted autobiography. The earlier journals capture the essence of the Sierra Nevada and Alaska landscapes. The changing appearance of the Sierras from Sequoia north and beyond the Yosemite enthralled Muir, and the first four years of the journals reveal his dominating concern with glacial action. The later notebooks reflect his changes over the years, showing a mellowing of spirit and a deep concern for human rights. Like all his writings, the journals concentrate on his observations in the wilderness. His devotion to his family, his many warm friendships, and his many-sided public life are hardly mentioned. Very little is said about the quarter-century battle for national parks and forest reserves. The notebooks record in language fuller and freer than his more formal writings the depth of his love and transcendental feeling for the wilderness. The rich heritage of his native Scotland and the unconscious music of the poetry of Burns, Milton, and the King James Bible permeate the language of his poetic fancy. In his later life, Muir attempted to sort out these journals, and at the request of friends published a few extracts. A year after his death in 1914, his literary executor and biographer William Frederick Badger also published episodes from the journals. Linnie Marsh Wolfe set out to salvage the best of his writings still left unpublished in 1938 and has thus added to our understanding of the life and thought of a complex and fascinating American figure.
