The Hollywood Studio System Douglas Gomery, 2017-10-27 Despite being one of the biggest industries in the United States indeed the World the internal workings of the dream factory that is Hollywood is little understood outside the business The Hollywood Studio System A History is the first book to describe and analyse the complete development classic operation and reinvention of the global corporate entities which produce and distribute most of the films we watch Starting in 1920 Adolph Zukor Head of Paramount Pictures over the decade of the 1920s helped to fashion Hollywood into a vertically integrated system a set of economic innovations which was firmly in place by 1930 For the next three decades the movie industry in the United States and the rest of the world operated by according to these principles Cultural social and economic changes ensured the demise of this system after the Second World War A new way to run Hollywood was required Beginning in 1962 Lew Wasserman of Universal Studios emerged as the key innovator in creating a second studio system He realized that creating a global media conglomerate was more important than simply being vertically integrated Gomery's history tells the story of a tale of two systems using primary materials from a score of archives across the United States as well as a close reading of both the business and trade press of the time Together with a range of photographs never before published the book also features over 150 box features illuminating aspect of the business The Hollywood Studios Ethan

Mordden, 2013-01-02 Hollywood in the years between 1929 and 1948 was a town of moviemaking empires The great studios were estates of talent sprawling dense diverse It was the Golden Age of the Movies and each studio made its distinctive contribution But how did the studios growing up in the same time and place develop so differently What combinations of talents and temperaments gave them their signature styles These are the questions Ethan Mordden answers with breezy erudition and irrepressible enthusiasm in this fascinating and wonderfully readable book Mordden illuminates how the style of each studio was primarily dictated by the personality philosophy and attitudes of its presiding mogul and how all these factors affected the work and careers of individual actors directors writers and technicians and the success of the studio in general Hollywood Studios Tommy Dangcil, 2007 Just after the turn of the 20th century the motion picture industry moved to the West Coast and the largest land of make believe was created in Hollywood California From the silent era beginnings of primitive open air stages to the fabled back lots of the studios heyday Hollywood Studios presents a bygone era of magical moviemaking in rare postcards Assembled from the author's private collection these images from the Chaplin Studios to Metro Goldwyn Mayer depict an insider's look back at the dream factories known as the Hollywood studios

Allan Dwan and the Rise and Decline of the Hollywood Studios Frederic Lombardi, 2013-03-29 It could be said that the career of Canadian born film director Allan Dwan 1885 1981 began at the dawn of the American motion picture industry Originally a scriptwriter Dwan became a director purely by accident Even so his creativity and problem solving skills propelled him to the top of his profession He achieved success with numerous silent film performers most spectacularly with

Douglas Fairbanks Sr and Gloria Swanson and later with such legendary stars as Shirley Temple and John Wayne Though his star waned in the sound era Dwan managed to survive through pluck and ingenuity Considering himself better off without the fame he enjoyed during the silent era he went on to do some of his best work for second echelon studios notably Republic Pictures Sands of Iwo Jima and such independent producers as Edward Small Along the way Dwan also found personal happiness in an unconventional manner Rich in detail with two columns of text in each of its nearly 400 pages and with more than 150 photographs this book presents a thorough examination of Allan Dwan and separates myth from truth in his life and films *The Hollywood Studios* Ethan Mordden,1987 *The Hollywood Studios* Roy Pickard,1978 Hollywood Studios Ethan Moroden,1990-01-01 **Creative Industries** Richard E. Caves,2000-06-30 Drawing on industrial economics and contract theory Caves explores the organization of creative industries including visual and performing arts movies theater sound recordings and book publishing In each artistic inputs are combined with humdrum inputs But Caves finds the deals bringing these inputs together are inherently problematic **Working in Hollywood** Ronny Regev,2018-09-25 A history of the Hollywood film industry as a modern system of labor this book reveals an important untold story of an influential twentieth century workplace Ronny Regev argues that the Hollywood studio system institutionalized creative labor by systemizing and standardizing the work of actors directors writers and cinematographers meshing artistic sensibilities with the efficiency minded rationale of industrial capitalism The employees of the studios emerged as a new class they were wage laborers with enormous salaries artists subjected to budgets and supervision stars bound by contracts As such these workers people like Clark Gable Katharine Hepburn and Anita Loos were the outliers in the American workforce an extraordinary working class Through extensive use of oral histories personal correspondence studio archives and the papers of leading Hollywood luminaries as well as their less known contemporaries Regev demonstrates that as part of their contribution to popular culture Hollywood studios such as Paramount Warner Bros and MGM cultivated a new form of labor one that made work seem like fantasy **Hollyworld** Aida Hozic,2018-10-18 Hollywood is currently one of the largest and most profitable sectors of the U S economy In just a few decades it has transformed itself from a dying company town into a merchandising emporium of movies games and licensed characters It is quickly moving even further into cyberspace virtual reality and digital imaging Aida Hozic writes of these enormous changes in the film industry from a novel perspective by tracing shifts in spatial organization of film production from the enclosed worlds of old Hollywood studios through globally dispersed location shooting to digital production and distribution Hozic s fascinating tale of latter day capitalism suggests that the physical reorganization of production across the American economy but in Hollywood in particular alters material and conceptual boundaries between work and leisure public and private reality and fantasy Particular economic regimes and forms of spatial organization have specific moral implications and so the story of Hollywood s cultural production is partly a story of censorship and moral surveillance Hozic s account of industrial change in Hollywood and of its attempts at moral control over

the production of fantasy is an illuminating confrontation with the peculiar nature of Hollywood's political authority and of its complex power
