Indigenous Writers of Taiwan John Balcom, Ying-tish Balcom, 2005-07-27 Few people beyond the shores of Taiwan are aware that it is home to a population of indigenous peoples who for more than fifteen thousand years have lived on the island Over the years through the Chinese imperial period the Japanese occupation and for most of the twentieth century the indigenous peoples of Taiwan were marginalized and deprived of rights However with the lifting of martial law in 1987 new government policies regarding ethnic groups and growing interest in Taiwan's aboriginal peoples indigenous writing began to blossom With its intense and lyrical explorations of a fading culture indigenous writing has become an important topic of discussion in Taiwanese literary circles This collection of indigenous literature is the first such anthology in English In selecting the stories essays and poems for the anthology the editors provide a representative sampling from each of Taiwan's nine indigenous tribes The writers explore such themes as the decline of traditional ways of life in Taiwan's aboriginal communities residual belief in ancestral spirits assimilation into a society dominated by Han

Chinese and the psychological and economic encroachment of the outside world Their writings offer previously unheard perspectives on the plight of aboriginal cultures and the experiences of Taiwanese minorities John Balcom has included an introduction to provide the reader with background information on Taiwan s indigenous peoples The introduction addresses the origins of Taiwan s Austronesian peoples and general information on their culture languages and history A discussion of the growth and development of indigenous literature its sociolinguistic and cultural significance and the difficulties faced by such writers is also included

Appendices: Persistent Traditions Luc W.S.W. Amkreutz, 2013-12-19 The adoption of agriculture is one of the major developments in human history Archaeological studies have demonstrated that the trajectories of Neolithisation in Northwest Europe were diverse This book presents a study into the archaeology of the communities involved in the process of Neolithisation in the Lower Rhine Area 5500 2500 cal BC It elucidates the role played by the indigenous communities in relation to their environmental context and in view of the changes that becoming Neolithic brought about This volume contains the appendices to the thesis Persistent traditions A long term perspective on communities in the process of Neolithisation in the Lower Rhine Area 5500 2500 cal BC These constitute a comprehensive inventory of 159 mostly excavated archaeological sites in the Lower Rhine Area for which general characteristics were recorded Their analysis shows that the succession of Late Mesolithic Swifterbant culture Hazendonk group and Vlaardingense culture societies represents a continuous long term tradition of inhabitation of the wetlands and wetland margins of this area forming a culturally continuous record of communities in the transition to agriculture The site catalogue forms both an overview of and detailed introduction into the site based archaeology of this time frame After demonstrating the diversity of the Mesolithic the subsequent developments regarding Neolithisation are studied from an indigenous perspective

Foregrounding the relationship between local communities and the dynamic wetland landscape the archaeological evidence regarding its regional inhabitation points to long term flexible behaviour and pragmatic decisions being made For the interpretation of Neolithisation this study offers a complementary approach to existing research Instead of arguing for a short transition based on the economic importance of domesticates and cultigens at sites the emphasis is placed on the persistent traditions of the communities involved New elements instead of bringing about radical changes are shown to be attuned to existing hunter gatherer practices By documenting indications of the mentalit of the inhabitants of the wetlands it is demonstrated that their mindset remained essentially Mesolithic for millennia Ecoambiguity Karen
