**The Analyst and the Mystic** Sudhir Kakar, 1991 Kakar goes beyond the traditional psychoanalytic interpretation of Ramakrishna's mystical visions and practices. He clarifies their contribution to the psychic transformation of a mystic and offers fresh insight into the relation between sexuality and ecstatic mysticism. Through a comparison of the healing techniques of the mystical guru and those of the analyst, Kakar highlights the difference in their healing objectives and reveals the positive psychological aspects of the religious experience. The Creative Artist, Mental Disturbance, and Mental Health Elliot Benjamin, Ph.D., 2017-04-21 This book describes The Artistic Theory of Psychology in which a dominant focus is on the successful creative artist and mental health. However, the book also describes the relationship of the creative artist to mental disturbance in various contexts, including an innovative academic treatment, personal experiential essays written by the author, excerpts related to the author's semi-autobiographical novel, and illustrative blog excerpts from the author's struggling actor son. The main theme of the book is that through humanistic supportive environments for creative artists, the phenomenon of the successful creative artist in the context of success in both one's creative artistic endeavors as well as a satisfactory adjustment to day-to-day life can be nourished and enhanced.

**The Mystic Way in Postmodernity** Sue Yore, 2009 This book challenges experiential, esoteric, and colloquial understandings of mysticism by bringing a fresh relevance to the term through an interdisciplinary dialogue between literature, mysticism, and theology in the context of postmodernity. In order to achieve this, the author takes selected writings of Iris Murdoch, Denise Levertov, and Annie Dillard and incorporates them into various stages of a redesigned mystic way. The fourteenth-century mystic Julian of Norwich is invoked throughout as a role model whom these three writers seek to emulate as popular writers, contemplatives, and theologians. As theologians who are concerned with the pressing issues of our age, Grace Jantzen, Dorothee Soelle, and Sallie McFague are drawn on as conversation partners to complete the three-way discussion. The author maintains that understanding the writing and reading of creative texts in the context of practical mysticism facilitates an integrated approach to the use of literature for theological expression.

On the Art of Singing Richard Miller, 1996 A comprehensive volume on all facets of vocal performance. On the Art of Singing considers in detail established comparative vocal techniques, the specifics of interpretation and communication, the factors that contribute to career preparation and maintenance, and the application of functional information to the art of singing. Topics that most frequently concern singers and teachers at all levels of accomplishment are reviewed. These include an examination of pedagogical approaches to breath management, to laryngeal freedom, and to resonance balance; advice on career building; considerations of style and interpretation; and information on the physiology and acoustics of the singing voice. Data from diverse sources, otherwise inaccessible to the singer, are assembled and interpreted in the light of performance artistry. From his own long and distinguished career as a performer, teacher of singing, and vocal researcher, the author aims at making practical the relationship of technical
