The Mystic Bridge Of Time:

The Mystic Bridge of Time Doris Hallmark Fly, 2001-04-01 *Bridge of Time, Beyond the Present* A.J. Schrager, 2005-10-13 What started out a half century ago to be a chase down history's trail to discover the origin of a silver sculpture of a man and his dog plasticized around a copper armature turned out to be a chase of the history of mankind itself The writer has brought to light of day a reasoned documented analysis of the unbroken chain of seemingly isolated facts obscure data and wove them into a tapestry or painted a word picture of where man has been The quest for the man the sculptor and his culture became a time traveled beyond the normal bounds of inquiry United States Coast Pilot ,1989

Nancy Seasholes has given us the first complete account of when why and how this land was created The story of landmaking in Boston is presented geographically each chapter traces landmaking in a different part of the city from its first permanent settlement to the present Seasholes introduces findings from recent archaeological investigations in Boston and relates landmaking to the major historical developments that shaped it At the beginning of the nineteenth century landmaking in Boston was spurred by the rapid growth that resulted from the burgeoning China trade The influx of Irish immigrants in the mid nineteenth century prompted several large projects to create residential land not for the Irish but to keep the taxpaying Yankees from fleeing to the suburbs Many landmaking projects were undertaken to cover tidal flats that had been polluted by raw sewage discharged directly onto them removing the pestilential exhalations thought to cause illness Land was also added for port developments public parks and transportation facilities including the largest landmaking project of all the airport A separate chapter discusses the technology of landmaking in Boston explaining the basic method used to make land and the changes in its various components over time The book is copiously illustrated with maps that show the original shoreline in relation to today s streets details from historical maps that trace the progress of landmaking and historical drawings and photographs
