The Generative Study Of Second Language Acquisition:

The Generative Study of Second Language Acquisition Suzanne Flynn,Gita Martohardjono,Wayne O'Neil,2014-01-14 The vast majority of work in theoretical linguistics from a generative perspective is based on first language acquisition and performance The vast majority of work on second language acquisition is carried out by scholars and educators working within approaches other than that of generative linguistics In this volume this gap is bridged as leading generative linguists apply their intellectual and disciplinary skills to issues in second language acquisition The results will be of interest to all those who study second language acquisition regardless of their theoretical perspective and all generative linguists regardless of the topics on which they work

Generative Second Language Acquisition Roumyana Slabakova, Tania Leal, Amber Dudley, Micah Stack, 2020-09-24 Most human beings grow up speaking more than one language a lot of us also acquire an additional language or languages other than our mother tongue This Element in the Second Language Acquisition series investigates the human capacity to learn additional languages later in life and introduces the seminal processes involved in this acquisition The authors discuss how to analyze learner data and what the findings tell us about language learning critically assessing a leading theory of how adults learn a second language Generative SLA This theory describes both universal innate knowledge and individual experiences as crucial for language acquisition This Element makes the relevant connections between first and second language acquisition and explores whether they are fundamentally similar processes Slabakova et al provide fascinating pedagogical questions that encourage students and teachers to reflect upon the experiences of second language learners
