Publishing in Tsarist Russia Yukiko Tatsumi, Taro Tsurumi, 2020-02-20 According to Benedict Anderson the rapid expansion of print media during the late 1700s popularised national history and standardised national languages thus helping create nation states and national identities at the expense of the old empires Publishing in Tsarist Russia challenges this theory and by examining the history of Russian publishing through a transnational lens reveals how the popular press played an important and complex Imperial role while providing a soft infrastructure which the subjects could access to change Imperial order As this volume convincingly argues this is because the Russian language at this time was a lingua franca it crossed borders and boundaries reaching speakers of varying nationalities Russian publications then were able to effectively operate within the structure of Imperialism but as a public space they went beyond the control of the Tsar and ethnic Russians This exciting international team of scholars provide a much needed fresh take on the history of Russian publishing and contribute significantly to our understanding of print media language and empire from the 18th to 20th centuries Publishing in Tsarist Russia is therefore a vital resource for scholars of Russian history comparative nationalism and publishing studies

The Antiquarians of the Nation Francesca Zantedeschi, 2019-01-03 In the nineteenth century the search for the artistic architectural and written monuments promoted by the French State with the aim to build a unified nation transcending regional specificities also fostered the development of local or regional identitary consciousness In Roussillon this distinctive consciousness relied on a basically cultural concept of

nation epitomised mainly by the Catalan language Roussillon being composed of Catalan counties annexed to France in 1659 In *The Antiquarians of the Nation* Francesca Zantedeschi explores how the works of Roussillon s archaeologists and philologists who retrieved and enhanced the Catalan specificities of the region contributed to the early stages of a national Catalan cultural revival and galvanised the implicit debate between French national history and incipient regional studies

The Necessary Nation Gregory Jusdanis,2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for modernization Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking Jusdanis however emphasizes the positive collaboration between nation building and culture Through a series of critical readings of multicultural postcolonial and globalization theories the author reveals how nationalism enables people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens He explains why people over the last two hundred years have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world What emerges is a fresh perspective on the subjects of national culture identity political nations globalization postcolonialism and diaspora
