The Ghosts Of Biggin Hill:

Ghosts of Biggin Hill Bob Ogley, 2001 Memory, Fear and Ghosts Russell Breighner, Ghost stories are in many cases the human memory of some traumatic experience For reasons not yet understood in cases of extreme fear the mind creates a record that survives outside the originator s experience A reason why scientists have not studied these events is that they currently reside in the literature of the occult primarily as ghost stories tales of lost spirits trapped in some eternal vortex A review of this occult literature unearths much that has been misinterpreted Further investigation is needed to determine the full potential of this finding and its application to neurophysiology Military Ghosts Alan C.
