Hannis, 2021-07-17 The Lost Kingdom of Anian Regnum The Mystery of Ancient British Columbia Canada An Alternative History Article on the History of British Columbia Canada There is a mystery about British Columbia Canada a historical mystery that is just as significant as any other historical mystery in our past No one remembers the story of Ancient British Columbia and we are not taught about it in school Not so long ago Anian Regnum was inscribed on all the oldest maps searched for by the Explorers of Old believed by those who came after and spoken of in written history by respected Historians This unknown place of Anian Regnum was shown to be established within the mountains of British Columbia before it was British Columbia but it is now forgotten in time and disregarded as myth Could it be possible that Anian Regnum did exist and might we begin to assemble the fragmented annals of our written history to find the Lost Kingdom **Fur Trade Letters of Willie Traill 1864-1893**

William Edward Traill, K. Douglas Munro, 2006-12-11 Gritty deeply touching fascinating informative these letters show the joys and heartbreaking challenges of family life in the fur trade **The Northwest Fur Trade, 1763-1800** Wayne Edson Stevens, 1928 **Fur News and Outdoor World**, 1929 **Fur Age Monthly**, 1925 *Empires, Nations, and Families* Anne Farrar Hyde, 2011-07-01 To most people living in the West the Louisiana Purchase made little difference the United States was just another imperial overlord to be assessed and manipulated This was not as Empires Nations and Families makes clear virgin wilderness discovered by virtuous Anglo entrepreneurs Rather the United States was a newcomer in a place already complicated by vying empires This book documents the broad family associations that crossed national and ethnic lines and that along with the river systems of the trans Mississippi West formed the basis for a global trade in furs that had operated for hundreds of years before the land became part of the United States Empires Nations and Families shows how the world of river and maritime trade effectively shifted political power away from military and diplomatic circles into the hands of local people Tracing family stories from the Canadian North to the Spanish and Mexican borderlands and from the Pacific Coast to the Missouri and Mississippi rivers Anne F Hyde's narrative moves from the earliest years of the Indian trade to the Mexican War and the gold rush era Her work reveals how in the 1850s immigrants to these newest regions of the United States violently wrested control from Native and other powers and how conquest and competing demands for land and resources brought about a volatile frontier culture not at all the peace and prosperity that the new power had promised
