**Battle for the BIA** David W. Daily, 2014-12-05 By the end of the nineteenth century Protestant leaders and the Bureau of Indian Affairs had formed a long standing partnership in the effort to assimilate Indians into American society But beginning in the 1920s John Collier emerged as part of a rising group of activists who celebrated Indian cultures and challenged assimilation policies As commissioner of Indian affairs for twelve years he pushed legislation to preserve tribal sovereignty creating a crisis for Protestant reformers and their sense of custodial authority over Indians Although historians have viewed missionary opponents of Collier as faceless adversaries one of their leading advocates was Gustavus Elmer Emmanuel Lindquist a representative of the Home Missions Council of the Federal Council of Churches An itinerant field agent and lobbyist Lindquist was in contact with reformers philanthropists

government officials other missionaries and leaders in practically every Indian community across the country and he brought every ounce of his influence to bear in a full fledged assault on Collier's reforms David Daily paints a compelling picture of Lindquist's crusade a struggle bristling with personal animosity political calculation and religious zeal as he promoted Native Christian leadership and sought to preserve Protestant influence in Indian affairs In the first book to address this opposition to Collier's reforms he tells how Lindquist appropriated the arguments of the radical assimilationists whom he had long opposed to call for the dismantling of the BIA and all the forms of race based treatment that he believed were associated with it Daily traces the shifts in Lindquist's thought regarding the assimilation question over the course of half a century and in revealing the efforts of this one individual he sheds new light on the whole assimilation controversy He explicates the role that Christian Indian leaders played in both fostering and resisting the changes that Lindquist advocated and he shows how Protestant leaders held on to authority in Indian affairs during Collier's tenure as commissioner This survey of Lindquist's career raises important issues regarding tribal rights and the place of Native peoples in American society It offers new insights into the domestic colonialism practiced by the United States as it tells of one of the great untold battles in the history of Indian affairs

Cowger, 2001-02-01 Founded in 1944 the National Congress of American Indians (NCAI) is one of the most important intertribal political organizations of the modern era It has played a crucial role in stimulating Native political awareness and activism providing a forum for debates on vital issues affecting reservations and tribes overseeing litigation efforts and organizing lobbying activities in Washington Prior to the emergence of other intertribal political groups in the 1960s the NCAI was the primary political instrument for Native lobbying and resistance It fought against government efforts to terminate the reservation system worked to create the Indian Claims Commission protected the rights of Alaska Natives and secured voting and Social Security rights for Native peoples The NCAI continues today as in the past to steer a moderate political course bringing together and representing a wide range of Native peoples The National Congress of American Indians is the first full length history of the NCAI Drawing upon newly available NCAI records and oral interviews with founding members Thomas W Cowger tells the story of the founding and critical first two decades of this important organization He presents the many accomplishments of and great challenges to the NCAI examines its role in the development of Native political activism and explores its relationships to contemporaneous events such as the Cold War McCarthyism and the civil rights movement

**A New Deal for Native Art** Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In A New Deal for Native Art Jennifer McLerran reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with

promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art s commodity status and the artist s position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations A New Deal for Native Art offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal **Monographic Series** Library of Congress, When Indians Became Cowboys Peter Iverson, 1994 Focusing on the northern plains and the Southwest Iverson traces the rise and fall of individual and tribal cattle industries against the backdrop of changing federal Indian policies He describes the Indian Bureau s inability to recognize that most nineteenth century reservations were better suited to ranching than farming Even though allotment and leasing stifled ranching livestock became symbols and ranching a new means of resisting adapting and living for remaining Native
