own political behalf didn't begin in the 1960s. Even while enslaved black people courageously launched petitions, instigated strikes on plantations, and staged full-blown revolts, creating a legacy of activism that expanded through the abolition movement, Reconstruction, the Jim Crow era, the post-World War II civil rights movement, and into the present.

Afro-American Life, History and Culture, 1985 **Between Homeland and Motherland** Alvin B. Tillery, Jr., 2011-03-15

In *Between Homeland and Motherland*, Alvin B. Tillery Jr. considers the history of political engagement with Africa on the part of African Americans, beginning with the birth of Paul Cuffe's back-to-Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000. In contrast to the prevailing view that pan-Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa, Tillery highlights the importance of domestic politics and factors within the African American community. Employing an innovative multimethod approach that combines archival research, statistical modeling, and interviews, Tillery argues that among African American elites, activists, intellectuals, and politicians, factors internal to the community played a large role in shaping their approach to African issues, and that shaping U.S. policy toward Africa was often secondary to winning political battles in the domestic arena. At the same time, Africa and its interests were important to America's black elite, and Tillery's analysis reveals that many black leaders have strong attachments to the motherland. Spanning two centuries of African American engagement with Africa, this book shows how black leaders continuously balanced national, transnational, and community impulses, whether distancing themselves from Marcus Garvey's back-to-Africa movement, supporting the anticolonialism movements of the 1950s, or opposing South African apartheid in the 1980s.

African American Politics in Rural America E. Ike Udogu, 2006-08-31

This timely work examines minority and ethnic politics in rural America and other democratic societies, and how the majority versus minority political competition is played out in society. Unlike most books on national, state, and local governments, *African American Politics in* *Black World/Negro Digest*, 1965-10. Founded in 1943, *Negro Digest* (later *Black World*) was the publication that launched Johnson Publishing. During the most turbulent years of the civil rights movement, *Negro Digest* / *Black World* served as a critical vehicle for political thought for supporters of the movement.
