Mary Stuever

The New Forester:

The Forester's Log Mary Stuever, 2009-03-15 When Mary Stuever graduated from forestry school in the early 1980s her profession was facing tremendous challenges as the nation's forests were poised for serious decline from catastrophic wildfires insect outbreaks and suburban encroachment Stuever captured this transition over the last few decades in her syndicated monthly column The Forester's Log Originally penned for newspapers in rural forested communities in the Southwest the column has found its way into various magazines newsletters anthologies and Web sites Stuever's career involves firefighting fire rehabilitation timber sale administration environmental education and many other aspects of forest management Through her work with native tribes local state and federal agencies and private landowners Stuever focuses on the important bond between land and people With an inspiring and informative style Stuever's tales weave fresh insight into forest issues Her writings collected here for the first time tell the poignant story of places people and experiences that have shaped her passion while offering a rare glimpse of forestry in the Southwest at the turn of the new millennium The Forester's Daughters. the interaction between different institutions in environmental governance and the role of human livelihood strategies in this interaction With a case study of teak farming and sand winning in the Dormaa Municipality and Dormaa East district in midwestern Ghana the work seeks to contribute to understanding the dynamics and role of institutions and human behaviour relationship in environmental governance The study has been formulated and conducted following some observations of interaction between statutory and customary institutions in regulating human activities on the natural environment in Dormaa Prior to this study observations of this author in some communities in the Dormaa Municipality and Dormaa East district showed that statutory and customary environmental governance institutions influenced each other to shape the ways different people acted on the natural environment Moreover it was observed that the actions of people in turn influenced how these institutions functioned and affected each other **Report** Pennsylvania. Report of the Department of Forestry of the State of Pennsylvania for the Years ... Pennsylvania. Department of Forestry,1916 **The Royal Forests of Medieval England** Charles R. Young,2015-10-28 The distinction between the forest and the trees is fundamental to this study for the royal forest of medieval England was a complex institution with legal political economic and social significance To protect the beasts of the forest and their habitat initially for the king s hunting and later for economic exploitation an elaborate organization of officials and courts administered a system of forest law that was unique to medieval England The subject can first be studied in detail in the records and chronicles of the Angevin kings which reflect the restless activity of Henry II and his growing corps of officials that led to the expansion of the area designated as royal forest At its height in the thirteenth century an estimated one fourth of the land area of England and its riches came under the special jurisdiction of forest law Barons whose holdings lay within the royal forest were restricted in their use of the land and the activity of all who lived or traveled in the forest was circumscribed Until the institution of new taxes overshadowed the economic importance of the forest and the king divested himself of large areas of forest in 1327 the extent of the royal forest with its special jurisdiction was often a source of conflict between king and barons and was a major political issue in the Magna Carta crisis of 1215 This is the first general history of the royal forest system from its beginning with the Norman Conquest to its decline in the later Middle Ages The author pays special attention to the development of forest law alongside common law and the interrelationship between the two types of law courts and justices The preservation of extensive unpublished records of the forest courts in the Public Record Office makes possible this intensive study of the legal and administrative aspects of the royal forest chronicles and the records of the Exchequer among other sources shed light on the political and economic importance of the royal forests in medieval England The author s ultimate objective is to show the influence of the royal forest upon the daily lives of contemporaries both the barons who held land and the peasants who tilled land within the royal forests **The Dublin University Magazine** ,1838
