*Icons of Space* Jelena Bogdanović, 2021-07-26 Icons of Space Advances in Hierotopy brings together important scholars of Byzantine religion art and architecture to honour the work of

renowned art historian Alexei Lidov As well as his numerous publications Lidov is well known for developing the concept of hierotopy an innovative approach for studying the creation of sacred spaces Hierotopy and the related concepts of spatial icons and image paradigms emphasize fundamental questions about icons including what defines them as structures spaces and experiences Chapters in this volume engage with the overarching theme of icons of space by employing contrasting and complementing methods of hierotopy with more traditional approaches such as iconography Examinations of icons have traditionally been positioned within strictly historical theological socio economic political and art history domains but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi layered iconic ideas and the lived experiences of the creators and beholders of such spaces This book contributes to image theory and theories of architecture and sacred space Simultaneously it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power This book will appeal to scholars and students of Byzantine history as well as those interested in hierotopy and art history

The Meaning of Icons Léonide Ouspensky, Vladimir Lossky, 1982 The nature of the icon cannot be grasped by means of pure art criticism nor by the adoption of a sentimental point of view Its forms are based on the wisdom contained in the theological and liturgical writings of the Eastern Orthodox Church and are intimately bound up with the experience of the contemplative life The present work is the first of its kind to give a reliable introduction to the spiritual background of this art The introduction into the meaning and language of the icons by Ouspensky imparts to us in an admirable way the spiritual conceptions of the Eastern Orthodox Church which are often so foreign to us but without the knowledge of which we cannot possibly understand the world of the icon Back cover

Icons Nikodim Pavlovich Kondakov, 2023-12-28 Icon painting has reached its zenith in Ukraine between the 11th and 18th centuries This art is appealing because of its great openness to other influences the obedience to the rules of Orthodox Christianity in its early stages the borrowing from Roman heritage or later to the Western breakthroughs combined with a never compromised assertion of a distinctly Slavic soul and identity This book presents a handpicked and representative selection of works from the 11th century to the late Baroque period
