Power in the Name Joseph L. Kimmel, 2025-05-19 How do divine names channel power This project analyzes first of all the invocation of particular divine names e g Jesus Aphrodite to access power for activities like healing protecting and harming In so doing it focuses on texts and artifacts e g amulets from ancient Mediterranean communities including both early Christian documents and Greek magical papyri Additionally it compares these materials with empowered names from a very different context 10th century Tibet where names were similarly invoked to access otherworldly power based upon Indic understandings of language In both contexts therefore a primary feature of this project is the analysis of religious experience mediated via invocation of particular names The project then builds upon this primary level onomastic analysis to consider how and why names were believed to work in this manner Towards this end the work comparatively considers major onomastic theories from the ancient Mediterranean world including those of Plato Origen Tertullian and Iamblichus While the main focus of the project is the ancient Mediterranean world the book will also address the Indo Tibetan linguistic theories undergirding artifacts from that context
