M. Stewart

The Nationwide Television Studies:

The Nationwide Television Studies Charlotte Brunson, David Morley, 2005-07-15 This book brings together for the first time David Morley and Charlotte Brunson's classic texts *Everyday Television Nationwide* and *The Nationwide Audience*. Originally published in 1978 and 1980, these two research projects combine innovative textual readings and audience analysis of the BBC's current affairs programme *Nationwide*. In a specially written introduction, the authors trace the history of the original *Nationwide* project and clarify the origins of the two books.

Television Studies Jonathan Gray, Amanda D. Lotz, 2019-01-15 *Television Studies* provides an overview of the origins, central ideas, and intellectual traditions of this exciting field. What have been the primary areas of inquiry in television studies? Why and how did these areas develop? How have scholars studied them? How are they developing? What have been the discipline's key works? This book answers these questions by tracing the history of television studies right up to the digital present, surveying emerging scholarship and addressing new questions about the field's relationship with the digital. The second edition includes an examination of how internet distributed services such as Netflix have adjusted the stories, industrial practices, and audience experience of television. For all those wondering how to study television or even why to study television, this new edition of *Television Studies* will provide a clear and engaging overview of key topics. The book works as a stand-alone introduction, and by placing key works in a broader context, can also provide an excellent basis for an entire course.

The Television Studies Reader Robert Clyde Allen, Annette Hill, 2004 *The Television Studies Reader* brings together key writings in the expanding field of television studies, providing an overview of the discipline and addressing issues of industry, genre, audiences, production, and ownership and representation. The Reader charts the ways in which television and television studies are being redefined by new and alternative ways of producing, broadcasting, and watching TV, such as cable, satellite, and digital broadcasting, home video, internet broadcasting, and interactive TV, as well as exploring the recent boom in genres such as reality TV and docu-soaps. It brings together articles from leading international scholars to provide perspectives on television programmes and practices from around the world, acknowledging both television's status as a global medium and the many and varied local contexts of its production and reception. Articles are grouped in seven themed sections, each with an introduction by the editors: Institutions of Television, Spaces of Television, Modes of Television, Making Television, Social Representation on Television, Watching Television, Transforming Television.

Television, Audiences and Cultural Studies David Morley, 2003-09-02 A multi-faceted exploration of audience research in which Morley draws on a rich body of empirical work to examine the emergence, development, and future of audience research.

Television Studies: The Basics Toby Miller, 2009-12-04 *Television Studies: The Basics* is a lively introduction to the study of a powerful medium. It examines the major theories and debates surrounding production and reception over the years and considers both the role and future of television. Topics covered include broadcasting history and technology, institutions and ownership, genre and content.

audiences Complete with global case studies questions for discussion and suggestions for further reading this is an invaluable and engaging resource for those interested in how to study television

Television After TV Lynn Spigel, Jan Olsson, 2004-11-30 A critical reassessment of television and television studies in the age of new media

Melodrama in Contemporary Film and Television M. Stewart, 2014-07-03 Melodrama in Contemporary Film and Television debates the ways in which melodrama expresses and gives meaning to trauma and pathos memory and historical re-visioning home and borders gendered and queer relations the family and psychic identities the national and emerging public cultures and morality and ethics

Blood, Guns, and Testosterone Barna William Donovan, 2009-11-02 Since the early days of film the representation of masculinity has changed considerably In the beginning men instinctively knew right from wrong They rode to the rescue and saved the day in the nick of time to the admiration and gratitude of society But over the decades heroes have evolved from being larger than life and infallible to being cynical washed up unwanted outsiders Violent content in these films also evolved from fistfights and gunplay to brutal attacks and nuclear explosions repeatedly ramping up in frequency intensity and graphic depictions But there is more to a violent film genre than violence and Blood Guns and Testosterone Action Films Audiences and a Thirst for Violence brings an entirely new understanding to the nature of such entertainment In this book Barna William Donovan examines masculinity and violence in action and adventure films and discusses how the most ardent fans of the genre incorporate this controversial form of entertainment into their lives Donovan argues that far from becoming violent the fans of the action film look at the genre as an artistic rumination on the nature of violence good and evil and the ever changing definitions of manhood At their very best or most interesting at least these films may even reflect on the nature of violence on human nature on aggression and how a self reflexive moral society can deal with violence And since so much of the violence of the world has always been perpetrated by men action films more often than not are contemplations of the complicated meaning of manhood In addition to fans of the genre Blood Guns and Testosterone will appeal to scholars of film history popular culture gender studies and audience research

Rhetorical Audience Studies and Reception of Rhetoric Jens E. Kjeldsen, 2017-11-10 This book examines the reception of rhetoric and the rhetoric of reception By considering salient rhetorical traits of rhetorical utterances and texts seen in context and relating this to different kinds of reception and or audience use and negotiation the authors explore the connections between rhetoric and reception In our time new media and new forms of communication make it harder to distinguish between speaker and audience The active involvement of users and audiences is more important than ever before This project is based on the premise that rhetorical research should reconsider the understanding conceptualization and examination of the rhetorical audience From mostly understanding audiences as theoretical constructions that are examined textually and speculatively the contributors give more attention to empirical explorations of actual audiences and users The book will provide readers with new knowledge on the workings of rhetoric as well as illustrative and guiding examples of new methods

of rhetorical studies *After Mass Media* Amanda D. Lotz, 2025-04-15 *After Mass Media* explores how the business of series and movies have fragmented to become an international business of microaudiences and what that means for the stories told and their cultural role

The Nationwide Television Studies Book Review: Unveiling the Power of Words
