Skills In Australian Geography:

Skills in Australian Geography Grant Kleeman, Andrew Peters, 2002 Skills in Australian Geography has been written by one of Australia's leading geography educators. It provides students in NSW with everything they need to practice the skills required by the new Geography Stages 4-5 syllabus and to prepare for the new School Certificate exam. Skills in Australian Geography is an attractive stimulus-based text. It has been written to help teachers respond to the shift in emphasis from a content-based approach to a skills-based approach to geography. It contains topographic map extracts, thematic maps, aerial and oblique photographs, graphs, tables, and a range of innovative support material including crosswords and wonderwords. The text is designed to ensure that students continue to enjoy geography as a mandatory subject as much as they did when it was an elective.

Skills in Geography Grant Kleeman, 2014 **Keys to Geography** AGTA, Australian Geography Teachers' Association, 2010 The second edition of this market-leading text will enrich all Geography classrooms. It is packed with updated facts and figures on maps, graphs, diagrams, statistics, and photographs and includes a significantly revised technology chapter that covers Google technologies and geographic information systems. The package contains student-friendly explanations, descriptions, and worked examples with skills being introduced sequentially. Published in conjunction with the Australian Geography Teach **Geography Skills Unlocked**, 2016-06 Geography Skills Book Junior School Australia

Bennett, 1970 *Excel School Certificate Australian History, Civics and Citizenship* Ken Webb, 2003 *What are we Teaching? Powerful knowledge and a capabilities curriculum* Richard Bustin, 2024-10-23 Written by Richard Bustin What are we Teaching Powerful knowledge and a capabilities curriculum offers a fresh perspective on curriculum design arguing that subjects are key to enabling young people to develop the powerful knowledge needed to flourish in a complex modern world Moving ideas beyond the traditional vs progressive debates that have dominated education discourse Richard Bustin challenges the overarching emphasis on exam performance at the expense of the broader benefits of subject knowledge and capabilities such as critical and creative thinking What are we Teaching explores curriculum debates in relation to the current school climate considering factors such as knowledge led education teaching to the test and the challenge of teacher retention and recruitment issues It includes new research involving teachers in real schools engaging with powerful knowledge and it prompts teachers to evaluate their responsibilities as curriculum makers The book invites teachers to consider why their subject specialism is important as part of a whole school curriculum vision and provides language with which to articulate that Part One introduces the key theories on which the book is based including different ways of making sense of knowledge skills and values in the curriculum powerful knowledge and educational capabilities What are we

Teaching is research based using voices of real teachers who engaged with the question what makes your subject powerful knowledge for young people and Part Two which focuses on different subject areas examines these testimonies The final part offers advice on building a powerful knowledge and capabilities rich curriculum in schools Each chapter includes a set of reflective questions which can be used as part of ITE training or staff CPD Essential reading for teachers senior and subject leaders and curriculum coordinators
