Diagnosis is often the most challenging part of dermatology. Diagnostic dermatology melds both clinical and histopathologic diagnosis by correlating the clinical and microscopic features of skin disease. This book is a heavily illustrated comprehensive overview of clinical dermatology and dermatopathology that will provide the reader with the tools to accurately diagnose skin disease in the dog and cat. The book will prove an indispensable reference for veterinary dermatologists, diagnostic pathologists, and small animal practitioners who seek to improve their skill in diagnostic dermatology. Completely revised second edition with many new disease descriptions. Now with colour clinical photographs illustrating all of the non-neoplastic skin diseases, previous edition had black and white photographs only. Written by internationally renowned experts, it provides a comprehensive overview of clinical dermatology and dermatopathology for all those interested in skin diseases of dogs and cats.

Skin Diseases of Dogs and Cats Steven A. Melman, 1994 Explains the whole gamut of skin diseases that can afflict cats and dogs, what's behind the disease, what the veterinarian has to do to identify both the ailment and its causes, and what can be done to bring about a cure.

This book is a combined update of two of Sue Paterson's books, *Skin Diseases of the Dog* and *Skin Diseases of the Cat*, into one volume for ease of reference.
