Strange and Obscure Stories of Washington, DC Rowland, Tim, 2018-03-20 Strange and Obscure Stories of Washington DC is a collection of wild but true tales about our nation's capital Starting in the early days of the republic and reaching into modern times the book recounts odd and humorous events that didn't make their way into the history books Along the way the book introduces a host of memorable characters Land speculators James Greenleaf and Robert Morris whose financial shenanigans almost took down the Federal City before it was even established Civil War madam Mary Ann Hall who ran the city's most upstanding brothel and died with an estate valued at 2 million The Treasury Girls the first wave of female workers hired to cut individual bills from printed sheets of cash with scissors who prompted a government investigation into immoral behavior in the workplace The NSA's secret staff of African Americans who went to work in code rooms after Harry Truman desegregated the federal workforce The 1960s activist who drew attention to a rat problem in poor neighborhoods by shuttling them in his station wagon to the toniest parts of Georgetown Readers will also find out how a hurricane saved the city in 1812 how a demonstration of the world's largest naval gun nearly killed the president and about the tree at Washington Cathedral whose origins trace back to the Holy Land at the time of Joseph of Arimathea With Strange and Obscure Stories of Washington DC in hand the city will never seem the same again

Signatures of Citizenship Susan Zaeske, 2003-12-04 In this comprehensive history of women's antislavery petitions addressed to Congress Susan Zaeske argues that by petitioning women not only contributed significantly to the movement to abolish slavery but also made important strides toward securing their own rights and transforming their own political identity By analyzing the language of women's antislavery petitions speeches calling women to petition congressional debates and public reaction to women's petitions from 1831 to 1865 Zaeske reconstructs and interprets debates over the meaning of female citizenship At the beginning of their political campaign in 1835 women tended to disavow the political nature of their petitioning but by the 1840s they routinely asserted women's right to make political demands of their representatives This rhetorical change from a tone of humility to one of insistence reflected an ongoing transformation in the political identity of petition signers as they came to view themselves not as subjects but as citizens Having encouraged women's involvement in national politics women's antislavery petitioning created an appetite for further political participation that spurred countless women after the Civil War and during the first decades of the twentieth century to promote causes such as temperance anti lynching laws and woman suffrage

Faith and the Presidency From George Washington to George W. Bush Gary Scott Smith, 2006-10-12 Publisher description

University, Court, and Slave Alfred L. Brophy, 2016-07-18 University Court and Slave reveals long forgotten connections between pre Civil War southern universities and slavery Universities and their faculty owned people sometimes dozens of people and profited from their labor while many slaves endured physical abuse on campuses As Alfred L Brophy shows southern universities fought the

emancipation movement for economic reasons but used their writings on history philosophy and law in an attempt to justify their position and promote their institutions Indeed as the antislavery movement gained momentum southern academics and their allies in the courts became bolder in their claims Some went so far as to say that slavery was supported by natural law The combination of economic reasoning and historical precedent helped shape a southern pro slavery jurisprudence Following Lincoln s November 1860 election southern academics joined politicians judges lawyers and other leaders in arguing that their economy and society was threatened Southern jurisprudence led them to believe that any threats to slavery and property justified secession Bolstered by the courts academics took their case to the southern public and ultimately to the battlefield to defend slavery A path breaking and deeply researched history of southern universities investment in and defense of slavery University Court and Slave will fundamentally transform our understanding of the institutional foundations pro slavery thought **The Pearl** Josephine F. Pacheco,2005 Chronicles the harrowing tale of seventy six slaves from Washington D C who hid aboard a schooner called the Pearl in 1848 in a desperate and ultimately futile attempt to sail down the Potomac River to freedom in Pennsylvania Legacy of the Trans-Atlantic Slave Trade United States.
