**New Studies in the History of American Slavery** Edward E. Baptist, Stephanie M. H. Camp, 2006-01-01 These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women the Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery s social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life s commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation *The Social Studies* ,1925 **The History Assignment** Burr W. historians and for anyone interested in how historians work      Announcement of the Summer Session State University of Iowa, 1927      **Atlantic Transformations** Dale W. Tomich, 2020-04-01 This book presents a new approach to nineteenth century Atlantic history by extending the analytical perspective of the second slavery to questions of empire colonialism and slavery With a focus on Latin America Brazil the Spanish Caribbean and the United States international scholars examine relations among empires between empires and colonies and within colonies as parts of processes of global economic and political restructuring By treating metropolis colony relations within the framework of the modern world economy the contributors call attention to the political economic and cultural interdependence and interaction of global and local forces shaping the Atlantic world They reinterpret as specific local responses to global processes the conflicts between empires within imperial relations the formation of national states the creation of new zones of agricultural production and the decline of old ones and the emergence of liberal ideologies and institutions      **List of Doctoral Dissertations in History Now in Progress at Universities in the United States and the Dominion of Canada** , 1914      *An American Quilt* Rachel May, 2018-05-01 Rachel May's rich new book explores the far reach of slavery from New England to the Caribbean the role it played in the growth of mercantile America and the bonds between the agrarian south and the industrial north in the antebellum era all through the discovery of a remarkable quilt While studying objects in a textile collection May opened a veritable treasure trove a carefully folded unfinished quilt made of 1830s era fabrics its backing containing fragile aged papers with the dates 1798 1808 and 1813 the words shuger rum casks and West Indies repeated over and over along with friendship kindness government and incident The quilt top sent her on a journey to piece together the story of Minerva Eliza Jane and Juba the enslaved women behind the quilt and their owner Susan Crouch May brilliantly stitches together the often silenced legacy of slavery by revealing the lives of these urban enslaved women and their world Beautifully written and richly imagined *An American Quilt* is a luminous historical examination and an appreciation of a craft that provides such a tactile connection to the past      **The Shaping of South African Society, 1652-1840.** Richard Elphick, Hermann Giliomee, 2014-01-15 History is a powerful aid to the understanding of the present and those who are concerned with the escalating crisis in South Africa will find this an invaluable source book This is the story of the evolution of a society in which race became the dominant characteristic the primary determinant of status wealth and power Cultural chauvinism of the first European colonists primarily the Dutch merged with economic and demographic developments to create a society in which whites relegated all blacks free blacks Africans imported slaves to a systematic pattern of subordination and oppression that foreshadowed the apartheid of the twentieth century From the beginning of the nineteenth century the new empire builders the British reinforced the racial order In the next century and a half the industrialized South Africa would become firmly integrated into the world economy Published originally in South Africa in 1979 and updated and expanded now a decade later this book by twelve South African British Canadian Dutch and American scholars is the most comprehensive history of

the early years of that troubled nation The authors put South Africa in the comparative context of other colonial systems Their social political and economic history is rich with empirical data and rests on a solid base of archival research The story they tell is a complex drama of a racial structure that has resisted hostile impulses from without and rebellion from within

*Blacks & Whites in São Paulo, Brazil, 1888-1988* George Reid Andrews, 1991 For much of the twentieth century Brazil enjoyed an international reputation as a racial democracy but that image has been largely undermined in recent decades by research suggesting the existence of widespread racial inequality George Reid Andrews provides the first thoroughly documented history of Brazilian racial inequality from the abolition of slavery in 1888 up to the late 1980s showing how economic social and political changes in Brazil during the last one hundred years have shaped race relations No laws of segregation or apartheid exist in Brazil but by looking carefully at government policies data on employment mainstream and Afro Brazilian newspapers and a variety of other sources Andrews traces pervasive discrimination against Afro Brazilians over time He draws his evidence from the country's largest and most economically important state São Paulo showing how race relations were affected by its transformation from a plantation based economy to South America's most urban industrialized society The book focuses first on Afro Brazilians entry into the agricultural and urban working class after the abolition of slavery This transition Andrews argues was seriously hampered by state policies giving the many European immigrants of the period preference over black workers As immigration declined and these policies were overturned in the late 1920s black laborers began to be employed in agriculture and industry on nearly equal terms with whites Andrews then surveys efforts of blacks to move into the middle class during the 1900s He finds that informal racial solidarity among middle class whites has tended to exclude Afro Brazilians from the professions and other white collar jobs Andrews traces how discrimination throughout the century led Afro Brazilians to mobilize first through the antislavery movement of the 1880s then through such social and political organizations of the 1920s and 1930s as the Brazilian Black Front and finally through the anti racism movements of the 1970s and 1980s These recent movements have provoked much debate among Brazilians over their national image as a racial democracy It remains to be seen Andrews concludes whether that debate will result in increased opportunities for black Brazilians Winner of the 1993 Arthur P Whitaker Prize
