Bush, City, Cyberspace John Foster, Ern Finniss, Maureen Nimmo, 2005-06-01 Aimed at academic professional and general readers Bush city cyberspace provides a snapshot of the state of Australian children s and adolescent literature in the early twenty first century and an insight into its history In doing so it promotes a sense of where Australian literature for

young people may be going and captures a literary and critical mood with which readers in Australia and beyond will identify. The title of the work is intended to capture the fact that the field has changed dramatically in the century and a half that Australian children's literature has existed from the bush myths and heroism that inform the past and the present through the recognition that the vast majority of authors and readers live in cities to the third wave of cyberliterature that incorporates multimedia hypertext weblinks and e books none of which lessens the enduring enthusiasm of practitioners and readers for books. Bush city cyberspace is not meant to be an encyclopedic volume. Rather well known recent and or award winning works have been emphasised with the addition of others where these help to illuminate particular points. The book is similar in coverage and approach to *Australian Children's Literature: An Exploration of Genre and Theme* written by the same three authors and published by the Centre for Information Studies in 1995. In the intervening period much has changed in the field notable examples including the blurring of the dividing line between quality and popular literature the blending of genres the rise of a truly indigenous literature the demise to a significant extent of Outbackery in fiction the acceptance of multiculturalism as the norm and the advent of the literature of cyberspace with new methods and the sheer speed of communication between writer and reader. All these trends and others are reflected in this work.

Representing the Rainbow in Young Adult Literature Christine A. Jenkins, Michael Cart, 2018-03-20. Discussions of gender and sexuality have become part of mainstream conversations and are being reflected in the work of more and more writers of fiction particularly in literature aimed at young adult audiences. But young readers regardless of their sexual orientation don't always know what books offer well rounded portrayals of queer characters and situations. Fortunately finding positive role models in fiction that features LGBTQ themes has become less problematic though not without its challenges. In *Representing the Rainbow in Young Adult Literature* LGBTQ Content since 1969 Christine Jenkins and Michael Cart provide an overview of the literary landscape. An expanded version of *The Heart Has Its Reasons* this volume charts the evolution of YA literature that features characters and themes which resonate not only with LGBTQ readers but with their allies as well. In this resource Jenkins and Cart identify titles that are notable either for their excellence accurate thoughtful and tactful depictions or deficiencies books that are wrongheaded stereotypical or outdated. Each chapter has been significantly updated and this edition also includes new chapters on bisexual transgender and intersex issues and characters as well as chapters on comics graphic novels and works of nonfiction. This book also features an annotated bibliography and a number of author title lists of books discussed in the text that will aid teachers librarians parents and teen readers. Encompassing a wider array of sexual identities *Representing the Rainbow in Young Adult Literature* is an invaluable resource for young people eager to read about books relevant to them and their lives.
