Smart Religious Poetry:

A Form of Sound Words Harriet Guest, 1989 Traditionally Christopher Smart has been represented as a mystical and eccentric poet a colorful visionary of only peripheral importance to our understanding of eighteenth century literature This study challenges that view offering a reassessment of Smart's work and examining the age in which he wrote and his place in it Guest reappraises his religious poetry in the context of theories of language and natural philosophy as well as in the context of a vast range of writing from private devotions and sermons to hymns and biblical criticism demonstrating the pervasive and complex significance of religion in the period *The Poetical Works of Christopher Smart: Volume II.*

The Religious Sublime David B. Morris, 2014-07-15 This perceptive carefully documented study challenges the traditional assumption that the supernatural virtually disappeared from eighteenth century poetry as a result of the growing rationalistic temper of the late seventeenth century Mr Morris shows that the religious poetry of eighteenth century England while not equaling the brilliant work of seventeenth century and Romantic writers does reveal a vital and serious effort to create a new kind of sacred poetry which would rival the sublimity of Milton and of the Bible itself Tracing the major varieties of religious poetry written throughout the century by major figures and by their now vanished contemporaries the author explains how later poets and critics made significant departures from the established norms These changes in religious poetry thus become a valuable means of understanding the shift from a neoclassical to a Romantic theory of literature *Order, Identity, and Harmony in the Religious Poetry of Christopher Smart [microform]* Karsgaard, David A. Lyrics Rosalind Powell, 2016-05-23 In the first full length study of Christopher Smart's translations and the place and function of translation in Smart's poetry Rosalind Powell proposes a new approach to understanding the relationship between Smart's poetics and his practice Drawing on translation theory from the early modern period to the present day this book addresses Smart's translations of Horace Phaedrus and the Psalms alongside the better known religious works such as Jubilate Agno and A Song to David Five recurrent threads run throughout Powell's study the effect of translation on the identity of a narrative voice in a rewritten text the techniques that are used to present translated texts to a new literary cultural and linguistic readership performance and reading contexts the translation of great works as an attempt to achieve literary permanence and finally the authorial influence of Smart himself in terms of the overt religiosity and nationalism that he champions in his writing In exploring Smart's major translation projects and revisiting his original poems Powell offers insights into classical reception and translation theory attitudes towards censorship expressions of nationalism in the period developments in liturgy and hymnody and the composition of children's books and school texts in the early modern era Her detailed analysis of Smart's translating poetics places them within a new contemporary context and locality to uncover the poet's works as a coherent project of Englishing
