These vary from small changes in the current structure to wholesale privatization of public schools. The contributions in this book discuss a wide range of proposals, including greater school choice, charter schools, promoting contact with the business community, public-private partnerships, and more. Privatization and Restructuring of Electricity Provision Daniel Czamanski, 1999-04-30 Before the energy crisis of the 1970s, electricity provision was a non-issue worldwide, but the crisis of 1973 induced policymakers to consider private and restructured electricity provision as an alternative to unified publicly and privately owned systems. Czamanski examines arguments and experiences concerning the divestiture of state-owned enterprises in a variety of political and technological contexts. He also considers restructuring under the Thatcher government in Great Britain, the reforms drafted by Czamanski in Israel, and restructuring in the United States, as well as events in Norway, the Pacific Rim, Canada, and the developing countries. Volume II focuses on the corrections industry itself, providing essays that explore the business models, profit motivations, economic factors, and operations of the corporations that offer corrections services, while Volume III explores the political and social environment of prison privatization. Academics, practitioners, policy makers, and advocates for and against private prisons will find this work useful and enlightening, while general readers can use the unbiased information to draw their own conclusions in respect to the merits of prison privatization.
