Smart Organization:

Smart Organizations in the Public Sector Hanna Godlewska-Majkowska, Tomasz Pilewicz, Patrycjusz Zarębski, 2023-07-07
How does a smart organization model enable self governments to lead local and regional development in a sustainable and resilient manner What are key aspects of smart organizations impacting the success of self governments in attracting and retaining residents entrepreneurs and investors Smart organizations became a relevant construct in economic and management sciences They supply many practical applications for self governments and public sector organizations that are looking for effective ways to leverage their resources and capabilities in the local and regional development process This research monograph indicates how factors of smart organizations in local administration lead to sustainable and resilient development processes In parallel the monograph is a practical guide for local government managers looking for the best international practices in collecting researching and interpreting data for making decisions that influence the competitiveness and market position of locations they govern **Integration of ICT in Smart Organizations** Mezgar, Istvan, 2006-01-31 The book covers the state of the art concepts and methodologies of smart organization development featuring information and communication technologies Provided by publisher **Smart Organizations in Industry 5.0** Sebastian Saniuk, Sandra Grabowska, Anna Adamik, 2024-12-31 The Fourth Industrial Revolution means the widespread digitization of economic processes using more economical and efficient production technologies Orientation towards productivity flexibility and low production costs results in a slow process of dehumanization of industry and focus only on implementing digital technologies of Industry 4 0 A natural consequence of this trend is the concern of workers governments and societies about new challenges and the role of humans in industry and the economy The hope is the emergence of a new industry concept proposed by the European Commission that expands the features of the existing Industry 4 0 concept to include human centric environmental and resilience aspects in smart organizations Industry 5 0 is an excellent alternative to the development of today s digital and dehumanized world and this book presents challenges and priority directions for smart organizations in an environment shaped by the pillars of Industry 5 0 This research volume discusses the development of technologies that support human oriented work systems sustainable production and system resilience in intelligent organizations It presents an educational challenge for universities and vocational schools in preparing employees for intelligent organizations and will be of interest to researchers academics policymakers and students in the fields of organizational studies knowledge management and the digital economy **Designing the Smart Organization** Roland Deiser, 2009-10-01 Filling a gap in the literature this book offers an innovative interdisciplinary approach to learning for corporate strategic development linking the domains of strategy organizational design and learning To demonstrate how this process drives the boundaries of the practice way beyond the established notion of simple training and management education the book is filled with detailed case studies from leading global organizations including Siemens ABB BASF the US

Army PricewaterhouseCoopers EADS Novartis and more These studies reveal how large scale corporations are using the power of dynamic corporate learning approaches to drive innovation enhance cultural values master post merger integration transform business models enhance leadership culture build technological expertise foster strategic change processes and ultimately increase bottom line results For any company that wants to compete in the 21st century Designing the Smart Organization offers inspiring perspectives for integrating corporate learning as a core business practice that will create sustainable strategic and organizational capabilities The Smart Organization David Matheson,James E. Matheson,1998 The Smart Organization brings new perspective to management decision making throughout the organization It identifies the key practices that enable successful organizations to deliver a stream of winning products and services Smart organizations say the Mathesons have internalized nine interlocking principles essential in creating corporate cultures that emphasize making the right strategic decisions at the right time They use best practices to support these decisions and sustain their success These principles among them embracing uncertainty disciplined decision making and value creation culture enable companies to make appropriate choices about their R D planning portfolio management and product strategies Drawing on the experiences of R D intensive organizations all over the globe the authors illustrate the book with best practice examples from companies like Hewlett Packard 3M Merck Procter Gamble DuPont Monsanto and AT T They stress the importance of evaluating tradeoffs investigating alternatives and getting buy in across functions to ensure that decisions will be viable from both the technological and the managerial perspective They show how managers can apply these methods more broadly to create a smart organization The Mathesons clearly demonstrate that changing the decision making process is an efficient means of reforming culture and improving not just R D but overall company performance Smart Organizations and Smart Artifacts Leonardo Caporarello,Beniamino Di Martino,Marcello Martinez,2014-05-15 This book offers a multidisciplinary strategy for finding new and more effective human computer interaction approaches in particular from a socio technical perspective that facilitate the exploration and exploitation of benefits that information technologies IT offer organizations Though the relationship between IT and organizations is certainly very strong it is also one of the greatest obstacles to securing benefits from their interaction The participation of organizational users in the planning and design stages of IT interfaces is the main area of human computer interaction where a wealth of contributions are positively enriching both the academic and management discussions Thus a new approach for managing this relationship is needed one in which the different stakeholders are suitably taken into account Moreover the outstanding success of the 2 0 phenomenon offers an example of a relevant platform where human computer interaction has been widely developed and exploited Consequently this will influence and already is influencing the way IT and users interact with each other The book is based on a selection of the best papers original double blind peer reviewed contributions from the annual conference of the Italian chapter of the AIS held in Milan Italy in December 2013 **Smart Education and e-Learning 2019** Vladimir L. Uskov,Robert J.

Howlett, Lakhmi C. Jain, 2019-05-31 This book contains the contributions presented at the 6th international KES conference on Smart Education and e Learning KES SEEL 2019 which took place at St Julian's Malta June 17-19 2019.
