Social Dimensions Of Canadian Youth Justice:

Social Dimensions of Canadian Youth Justice Bernard Schissel,1993 A critical sociology of law investigation suggests that youth justice in Canada is not simply the result of guilt or innocence but to a substantial degree is dependent upon a young offender s social characteristics This text examines the history of criminology theory and its relation to youth crime and the history of Canadian youth justice from the Industrial Revolution to the Young Offenders Act Marginality and Condemnation, 3rd Edition Carolyn Brooks,Bernard Schissel,2021-12-13T00:00:00Z Includes test bank and PowerPoint slides for professors who have adopted the text in their course Contact examrequest fernpub ca for more information This well received criminology textbook now in its third edition argues that crime must be understood as both a social and a political phenomenon Using this lens Marginality and Condemnation contends that what is defined as criminal how we respond to crime and why individuals behave in anti social ways are often the result of individual and systemic social inequalities and disparities in power Beginning with an overview of criminological discourse mainstream approaches and new directions in criminological theory the book is then divided into sections based on key social inequalities of class gender race and age each of which begins with an outline of the general issues for understanding crime and an introduction that guides readers through the empirical chapters that follow The studies provide insights into general issues in criminology ranging from the historical and current nature of crime and criminal justice to the various responses to criminality Readers are encouraged and challenged to understand crime and justice through concrete analyses rather than abstract argumentation In addition to a new introductory chapter that confronts how we define crime measure crime and understand and use criminology in this millennium the third edition provides new chapters examining crime in relation to the environment terrorism masculinity children and youth and Aboriginal gangs and the legacy of colonialism Youth Criminal Justice Policy in Canada Shahid Alvi,2012-02-02 In the past ten years much has changed in terms of youth justice policies in Canada as well as in the way Canadian society has evolved Canada has a new Act governing youth crime and there are indications that the Act will be revised again to make it tougher on youth in conflict with the law a development reflecting what many scholars are calling the punitive turn in youth justice policies in Canada and elsewhere At the same time Canadian child poverty rates which are strongly correlated with criminality have remained high despite a commitment made by governments in 1989 to eradicate the problem by the year 2000 Immigration patterns have changed and unemployment rates for young Canadians remain almost twice as high as those for adults In this volume Youth Criminal Justice Policy in Canada A Critical Introduction the author addresses these and other developments in relation to youth crime in Canada from a critical criminological perspective

Research Handbook on Youth Criminology Greg Martin,Estrella Pearce,2025-07-15 This timely Handbook provides historical contemporary theoretical and methodological perspectives on youth criminology It explores cutting edge research on juvenile justice and youth governance and proposes directions for future research Moral Panics over Contemporary

Children and Youth Charles Krinsky, 2016-12-05 The concept of moral panic has received considerable scholarly attention but as yet little attention has been accorded to panics over children and youth This is the first book to examine this important and controversial social issue by employing a rigorous intellectual framework to explore the cultural construction of youth through the dissemination of moral panics It is accessible in manner and makes use of the latest contemporary research by addressing some of the pressing recent concerns relating to children and youth including cyber related panics child abuse and pornography education and crime A truly international collection this volume features new global research focusing on the United Kingdom Australia Canada South Africa and France as well as the United States Genuinely multidisciplinary in approach it will appeal to researchers and students across the social sciences and humanities from sociology and social theory to media education anthropology criminology geography and history **Youth and the Canadian Criminal Justice**

System Shahid Alvi, 2000 Sporting Dystopias Ralph C. Wilcox, David L. Andrews, Robert Pitter, Richard L.

Irwin, 2012-02-01 Reaching beyond the popular celebration of commercial gains often associated with the proliferation of stadiums events and teams in the city Sporting Dystopias explores the role of sport in the process of community building Scholars from various fields including anthropology cultural studies history marketing media studies and sociology examine the cultural economic and political interplay of sport and the city The book systematically challenges the overwhelming claims of sport's benefit to the city as it scrutinizes the various tensions inherent in the relationship Grounded in economic means racial and ethnic affiliation and the contestation for space sport is seen as precipitating a broad range of human challenges **STILL Blaming Children** Bernard Schissel, 2021-01-10T00:00:00Z The media enhanced moral panic

surrounding youth has continued unabated over the past two decades Its form and substance varies but the politics of blaming and exploiting children underlies it all Despite the reality that rates for most youth crime have gone down the public condemnation of youth especially through the news media continue unabated and the position of children and youth in our societies is still as precarious as ever Put bluntly the lives of too many children and youth are fraught with potential danger Not only are they the victims of excessive legal scrutiny and scapegoats for panic driven public policy but they also go off to war proportionately more than adults and they work at unskilled jobs for no benefits and insultingly low wages Children and youth live outside the protections of human rights **STILL Blaming Children** an expanded and updated version of Blaming Children shows how getting tough on young offenders ignores the reality of their lives and the reality of their misconduct The book ends by describing more humane and mindful alternatives for youth offenders based on the human rights our children deserve **The Social Dimensions of Fiction** Steven Tötösy de Zepetnek, 2013-11-11 This work is a comparative study of

nineteenth century English Canadian and French Canadian novel prefaces a previously unexplored literary topic As a study in Comparative Literature with the application of a specific literary framework and methodology the study conforms to theoretical and methodological postulates formulated in and prescribed by this framework when applied This a priori

postulate necessitates that the research on and the presentation of the Canadian novel preface be carried out in a specific manner as follows First the study will establish the hypothesis that the preface to nineteenth century English Canadian and French Canadian novels is a genre in its own right This hypothesis will rest on the following 1 a taxonomical survey of related terms meaning preface 2 a survey of secondary literature of works dealing with the preface 3 a discussion of the theoretical framework and methodology of the Empirical Theory of Literature and its appropriateness for the study of the preface and 4 a discussion of the process of the compilation of the corpus of nineteenth century Canadian novel prefaces Chapter one In a second step the theoretical postulate outlined in the hypothesis will be put into practice by the development and production of a preface typology Chapter two In a third step further tenets of the Empirical Theory of Literature will be tested on the corpus of the prefaces Chapter three In a fourth step the prefaces will be analysed following the tenets formulated in and prescribed by the systemic framework applied Chapter four

Discrimination and Denial Clayton James Mosher, 1998-01-01 Champion sprinter Donovan Bailey said it and this book confirms it While racism may not be as blatant in Canada as in the United States it does exist Members of visible minority groups are discriminated against in employment housing and access to public services The increasing visibility of hate groups and calls to restrict immigration mark the growing tension Racist attitudes against Asians and Blacks in particular have seeped into the criminal justice system Ironically since 1960 it has been illegal in Ontario to track crime by race making it difficult for researchers to collect data The media our primary source of information has sensationalized crimes where minority groups are implicated Clayton Mosher uses historical data and media reports to expose racism in Canada's social legal and criminal justice systems He considers the social contexts of discrimination legislation directed against minority groups law enforcement and court outcomes At last we are offered an objective assessment of racism in Canada Discrimination and Denial is essential reading for judges lawyers police officers social policy makers and community leaders Interpretations of recent events such as the shooting of officer Todd Baylis by a fugitive alien and gang style slayings in Toronto's Chinatown are guaranteed to heat up the embers of public debate

Contemporary Issues in Canadian Policing Stephen Emmanuel Nancoo, 2004 Focuses on the important challenges facing the police and the community Part I articulates two views of public policing policing as force and policing as risk minimization Part II examines the new paradigm of community policing and outlines the principles and practices of a made in Canada community policing model Part III looks at the critical issues of the police subculture ethics and technology Part IV discusses human resources issues of managing diversity women in policing and the recruitment and promotion of visible minorities and aboriginal people Part V features operational issues such as public order interrogation the use of force police discretion and transnational policing Part VI explores trends and prospects in the 21st century and the

challenges of globalization terrorism national security racial profiling organizational performance measurement and the public policing private security debate **Confronting Cyber-Bullying** Shaheen Shariff,2009-01-12 This book is directed to academics educators and government policy makers who are concerned about addressing emerging cyber bullying and anti authority student expressions through the use of cell phone and Internet technologies There is a current policy vacuum relating to the extent of educators legal responsibilities to intervene when such expression takes place outside of school hours and school grounds on home computers and personal cell phones Students teachers and school officials are often targets of such expression The author analyzes government and school responses by reviewing positivist paradigms Her review of a range of legal frameworks and judicial decisions from constitutional human rights child protection and tort law perspectives redirects attention to legally substantive and pluralistic approaches that can help schools balance student free expression supervision safety and learning Juvenile Crime and Delinquency Ruth Marie Mann,2000 Juvenile Crime and Delinquency situates the field of Canadian youth justice historically cross culturally theoretically and politically through a collection of articles by Canadian British Australian and American authors The major theme in this collection is the tension between juvenile justice policies and social welfare policies The articles provide exposure to a variety of perspectives by representing selections from both academic and popular writers Topics addressed include child saving moral panics youth culture and girl violence as well as juvenile crime prevention and the ongoing reform of the youth justice system

Assessing the Youthful Offender Robert D. Hoge,D.A. Andrews,2013-06-29 Our society's preoccupation with crime and fear of crime appears to have shifted its focus to the juvenile offender Both electronic and print media continuously warn us that juvenile offenders are increasingly younger and more virulent The demographics of our population suggest that there will only be more juvenile offenders to fear in the near future All of these concerns arise in a social climate that is characterized by an ever increasing demand for stronger retributive measures against the offender The belief that only harsh justice will protect us from the ravages of juveniles has become dominant Increasingly perceptions and politics rather than scientific data dominate policy making with regard to youthful offenders In *Assessing the Youthful Offender* Issues and Techniques Robert D Hoge and D A Andrews make a restrained rational and ultimately persuasive argument for the use of standardized psychological assessments in the effective management of youth within juvenile justice systems They clarify how what we already know about the cause and management of youthful criminal activity can be incorporated into standardized testing and that the information obtained from testing can improve the administration of criminal justice Moreover this information is useful whatever the theoretical biases of those who administer the justice system The efficiency of policies of either retribution deterrence or rehabilitation is only enhanced by reliance on data *Social Justice* ,1997
