Essin,2012-12-23 By casting designers as authors cultural critics activists entrepreneurs and global cartographers Essin tells a story about scenic images on the page stage and beyond that helped American audiences see the everyday landscapes and exotic destinations from a modern perspective     Labor's Love Lost Andrew J. Cherlin,2014-12-04 Two generations ago young men and women with only a high school degree would have entered the plentiful industrial occupations which then sustained the middle class ideal of a male breadwinner family Such jobs have all but vanished over the past forty years and in their absence ever growing numbers of young adults now hold precarious low paid jobs with few fringe benefits Facing such insecure economic prospects less educated young adults are increasingly forgoing marriage and are having children within unstable cohabiting relationships This has created a large marriage gap between them and their more affluent college educated peers In *Labor s Love Lost* noted sociologist Andrew Cherlin offers a new historical assessment of the rise and fall of working class families in America demonstrating how momentous social and economic transformations have contributed to the collapse of this once stable social class and what this seismic cultural shift means for the nation s future Drawing from more than a hundred years of census data Cherlin documents how today s marriage gap mirrors that of the Gilded Age of the late nineteenth century a

time of high inequality much like our own Cherlin demonstrates that the widespread prosperity of working class families in the mid twentieth century when both income inequality and the marriage gap were low is the true outlier in the history of the American family In fact changes in the economy culture and family formation in recent decades have been so great that Cherlin suggests that the working class family pattern has largely disappeared Labor s Love Lost shows that the primary problem of the fall of the working class family from its mid twentieth century peak is not that the male breadwinner family has declined but that nothing stable has replaced it The breakdown of a stable family structure has serious consequences for low income families particularly for children many of whom underperform in school thereby reducing their future employment prospects and perpetuating an intergenerational cycle of economic disadvantage To address this disparity Cherlin recommends policies to foster educational opportunities for children and adolescents from disadvantaged families He also stresses the need for labor market interventions such as subsidizing low wages through tax credits and raising the minimum wage Labor s Love Lost provides a compelling analysis of the historical dynamics and ramifications of the growing number of young adults disconnected from steady decent paying jobs and from marriage Cherlin s investigation of today s would be working class shines a much needed spotlight on the struggling middle of our society in today s new Gilded Age

To many Progressive Era reformers the extent of street cleanliness was an important gauge for determining whether a city was providing the conditions necessary for impoverished immigrants to attain a state of decency a level of individual well being and morality that would help ensure a healthy and orderly city Daniel Eli Burnstein s study examines prominent street sanitation issues in Progressive Era New York City ranging from garbage strikes to juvenile cleaning leagues to explore how middle class reformers amassed a cross class and cross ethnic base of support for social reform measures to a degree greater than in practically any other period of prosperity in U S history The struggle for enhanced civic sanitation serves as a window for viewing Progressive Era social reformers attitudes particularly their emphasis on mutual obligations between the haves and have nots and their recognition of the role of negative social and physical conditions in influencing individual behaviors
