Advances in Library Administration and Organization Edward D. Garten, Delmus E. Williams, James M. Nyce, Janine Golden, 2008-05-19 A collection of essays designed to challenge working administrators and researchers to look more closely at their operations and consider again how they develop people and the organizations in which they work German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the

experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future. In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal, a paradoxical counter elitism of intellectual elites. Although their projects ran aground on internal tensions and on the Cold War, their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter. The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West.
