Social Policy Theories Concepts And Iss:

Social Policy Michael Lavalette, Alan Pratt, 2005-11-15 The Third Edition of this widely adopted textbook has been thoroughly revised and offers an authoritative and up to date coverage of the key theories concepts and issues in social policy The lively and readable text has been designed to provide students with the essential tools to gain a clear understanding of the theoretical debates surrounding the discipline The book is organized into three parts Part One offers a detailed but accessible critique of major theoretical approaches such as neo liberalism Marxism feminism and racism Part Two explores conceptual debates such as distributive justice and postmodernism Part Three engages with contemporary social policy issues such as children pensions and the role of New Labour It also features newly commissioned chapters to reflect recent developments and current debates within social policy New areas of consideration include Citizenship Post structuralism The politics of food Globalization Student exercises and reading lists feature throughout the text and practical examples are skilfully used to illustrate conceptual and theoretical material making it the ideal core textbook for undergraduate social policy students as well as those studying related welfare modules across the social sciences

Selected Issues and Problems in Social Policy Deryck R. Brown, 1998 This is the second volume in the Consortium Graduate School's series Studies in Caribbean Public Policy and represents the results of a programme of training in multidisciplinary policy oriented research provided to graduate professionals from Caribbean countries through the MSc Development Studies degree The volume focuses on selected issues and problems in social policy Each of the seven papers presented here is a case study which offers fresh insights or radical and new interpretations of persistent problems in the region The first three papers treat the society's most vulnerable or marginal social groups youths women and the elderly Other areas of focus are education crime and policing rural to urban migration and labour relations *United States Political Science Documents*, 1990

Territories of Social Responsibility Patricia Almeida Ashley, 2016-03-09 CSR is a fragile concept if conceived only at the organizational level or driven only by leadership will Many writers deal with aspects of social responsibility but most deal with it as this kind of organizational and voluntary initiative Few address the wider policy agenda The contributors to Territories of Social Responsibility researchers and practitioners from four continents all participated in an international workshop co ordinated by Patricia Almeida Ashley as part of her role as Chair in Development and Equity at the International Institute of Social Studies They form a policy network contributing to studies on the concept of a multi actor multilevel and territorial approach to social responsibility and governance oriented towards global regional or local development and equity goals This book introduces a new conceptual framework and promotes a research and policy agenda relating to it A new model sees CSR embedded in institutional and legal frameworks communicated and understood through a vector of communication and knowledge influencing situated culture and social values and classified into three levels of ethical challenges All of this can be expressed into the social processes of education governance the development of civil society and

policy making a renovation of the existing perspectives on the concept of social responsibility This ground breaking book integrates conceptual and empirical contributions and opens a research and policy agenda for the future It will appeal to academics higher level students policy makers and to leaders of and advisors to organizations affected by social

responsibility issues **International Bibliography of Economics 1998** Compiled by the British Library of Political and Economic Science,1999-12-16 Renowned for its international coverage and rigorous selection procedures this series provides the most comprehensive and scholarly bibliographic service available in the social sciences Arranged by topic and indexed by author subject and place name each bibliography lists and annotates the most important works published in its field during the year of 1997 including hard to locate journal articles Each volume also includes a complete list of the periodicals consulted **Strategic Studies Reference Guide** ,1977 Negotiating Childhoods ,2020-05-18 Negotiating Childhoods

engages in problematic positioning of the child within society by bringing childhood into the centre of our ontological and epistemological investigations These essays offer a multidisciplinary approach and explore the ways in which such issues impact on our conceptualizing of childhood and the lived realities of children **Rethinking Securities in an Emergent Technoscientific New World Order** Munyaradzi Mawere,Artwell Nhemachena,2018-03-13 The emergent technoscientific New World Order is being legitimised through discourses on openness and inclusivity The paradox is that openness implies vulnerability and insecurities particularly where closure would offer shelter While some actors including NGOs preach openness of African societies Africans clamour for protection restitution and restoration Africans struggle for ownership and access to housing for national cultural religious economic and social belonging that would offer them the necessary security and protection including protection from the global vicissitudes and matrices of power In the presence of these struggles to presuppose openness would be to celebrate vulnerability and insecurities This book examines ways in which emergent technologies expose Africans and more generally peoples of the global south to political economic social cultural and religious shocks occasioned by the colonality of the global matrices of power It notes that there is the use by global elites of technologies to incite postmodern revolutions designed to compound the vicissitudes and imponderables in the already unsettled lives of people north and south Particularly targeted by these technologies are African and other governments that do not cooperate in the fulfilment of the interests of the hegemonic global elites The book is handy to students and practitioners in security studies African studies development studies global studies policy studies and political science

UNITED STATES POLITICAL SCIENCE DOCUMENTS Volume Thirteen 1987 part 2 Document Descriptions ,1988

Changing Social Norms to Universalize Girls' Education in East Africa Auma Okwany ,Rekha Wazir,2016-12-20 The educational experience reproduces gender ideologies and social norms which interact with schooling for girls in very particular ways and are implicated in their persistent gendered exclusion and marginalization The authors in this volume focus on this link by taking a social norms approach to profile the processes strategies of and research on community led

interventions The chapters are paced around a pilot project that critically adapted a successful model in India to develop context appropriate integrated approaches to universalizing secondary education for girls in purposively selected rural and urban poor contexts in Kenya and Uganda The analyses provide reflexive documentation of the successes and challenges of project implementation activities that have successfully contested girls exclusion and marginalization in education This requires a sustained focus on the link between social and educational institutions and policies and working in an integrated manner with a range of policy actors including young people and targeted communities to bring about significant and sustainable change

Social Work Practice in Africa M. Twikirize, Helmut Spitzer, 2019-01-10 The importance of integrating indigenous knowledge systems into mainstream social work and ensuring context specific culturally relevant practice has long been emphasised in Africa and the Global South This book based on empirical research presents a selection of indigenous and innovative models and approaches of problem solving that will inspire social work practice and education At the core of these models lies a conceptual understanding of the community as the overarching principle for effective social work and social development in African contexts The empirical part of the book has a focus on East Africa and highlights case examples from Rwanda Tanzania Uganda Burundi and Kenya The book is intended for use by those involved in social work and social development practice social work educators students as well as policy makers It is relevant not just for audiences in Africa but also the global social work community especially those interested in promoting culturally relevant social work

Decentralization, Local Governance, and Social Wellbeing in India Rani Mullen, 2017-05-18 Over the past three decades decentralization has been seen as the means for allowing local governments to become more accountable and for encouraging the deepening of democracy and the building of village communities By drawing on original village level case studies of six villages in three different Indian states this book presents a systematic analysis of the impact of decentralization on the delivery of social services at the local level within India Supplementing national and state level data and analyzing the different historical legacies in each state the book argues that decentralization is not simply a function of the structure of the decentralization program or of the relationship between higher tiered and local government Rather the possibility of decentralization affecting social outcomes depends on several interacting factors including the distribution of power among local elites the dynamics of political competition and the level of civil society mobilization By examining constitutionally mandated political decentralization across India this book identifies the circumstances under which local government structures can lead to improved social services and societal wellbeing as well as presenting a substantial contribution to studies on South Asian Politics and Local Government

International Cooperation, Competition Authorities and Transnational Networks Mateusz Błachucki, 2023-11-30 This book presents a comprehensive study of the emergence functioning and evolution of international cooperation among competition authorities It presents an in depth look at network cooperation taking place within international organisations as well as networks based on binding international

agreements and various informal networks among others It further identifies and analyses the forms of international cooperation among national competition authorities NCAs that are taking place within transnational competition networks The book classifies these forms of cooperation by grouping them into three stages soft developed and enhanced cooperation discussing each in detail It thus reflects the evolution of the international cooperation process and provides insights as to its possible development This work will be of interest to researchers academics and advanced students in the fields of competition law public administration international relations and those interested in international competition law and its contribution to global public governance

Transatlantic Space Politics Sheng-Chih Wang, 2013-05-29 This book examines transatlantic politics through an analysis of 60 years of US European strategic interaction in space The significance of space politics for the study of transatlantic relations receives surprisingly little scholarly attention As a theatre of interaction transatlantic space politics reflects the vicissitudes of European and US power in the international system An understanding of space politics is therefore vital in understanding the status and prospect of the transatlantic order Using established IR theories the author investigates transatlantic space politics and proposes a theoretical explanation which is distinct from the conventional wisdom of the transatlantic security community More specifically he distinguishes between the constitutive and regulatory effects of the transatlantic security community an approach rarely employed in other research in the field Overall this book suggests not only that the transatlantic institutional pillar requires repair but also that the ideational factors need to be revitalised in order to consolidate the transatlantic alliance This book will be of much interest to students of space power transatlantic politics strategic studies foreign policy and IR security studies in general

Understanding Family Change and Variation Jennifer A. Johnson-Hanks, Christine A. Bachrach, S. Philip Morgan, Hans-Peter Kohler, 2011-08-27 Fertility rates vary considerably across and within societies and over time Over the last three decades social demographers have made remarkable progress in documenting these axes of variation but theoretical models to explain family change and variation have lagged behind At the same time our sister disciplines from cultural anthropology to social psychology to cognitive science and beyond have made dramatic strides in understanding how social action works and how bodies brains cultural contexts and structural conditions are coordinated in that process Understanding Family Change and Variation Toward a Theory of Conjunctural Action argues that social demography must be reintegrated into the core of theory and research about the processes and mechanisms of social action and proposes a framework through which that reintegration can occur This framework posits that material and schematic structures profoundly shape the occurrence frequency and context of the vital events that constitute the object of social demography Fertility and family behaviors are best understood as a function not just of individual traits but of the structured contexts in which behavior occurs This approach upends many assumptions in social demography encouraging demographers to embrace the endogeneity of social life and to move beyond

fruitless debates of structure versus culture of agency versus structure or of biology versus society
