MYTHOS TO LOGOS : THE ANATOMY OF SOCIAL PRACTICES RAVI R SRIVASTAVA, 2025-06-14 In a world increasingly guided by science and reason why do superstitions

rituals and blind faith still hold such powerful sway over our lives This compelling book embarks on a deep exploration of the roots persistence and consequences of irrational beliefs in modern society particularly in India where tradition and modernity coexist in complex harmony Through a rich blend of historical analysis literary insight psychological research and real life stories the author uncovers how myths evolve into mandates who benefits from sustaining outdated beliefs and why even the educated are not immune to their pull From ancient divination practices and caste driven customs to contemporary urban superstitions and digital age rituals the narrative reveals the intricate web of cultural economic and psychological forces that shape belief systems The book also highlights inspiring voices of dissent saints poets philosophers and modern rationalists who have challenged dogma and championed inquiry Ultimately it makes a passionate case for cultivating a culture of questioning critical thinking and scientific temper not as a rejection of faith but as a path toward deeper understanding and authentic spirituality This is more than a critique of superstition it s an invitation to explore the human need for meaning the dangers of unquestioned tradition and the transformative power of doubt For anyone interested in the intersection of belief identity and progress this book offers both illumination and inspiration

Epistemology of Modality and Philosophical Methodology Anand Vaidya,Duško Prelević,2023-03-21 This book collects original essays on the epistemology of modality and related issues in modal metaphysics and philosophical methodology The contributors utilize both the newer metaphysics first and the more traditional epistemology first approaches to these issues The chapters on modal epistemology mostly focus on the problem of how we can gain knowledge of possibilities which have never been actualized or necessities which are not provable either by logico mathematical reasoning or by linguistic competence alone These issues are closely related to some of the central issues in philosophical methodology notably to what extent is the armchair methodology of philosophy a reliable guide for the formation of beliefs about what is possible and necessary This question also relates to the nature of thought experiments that are extensively used in science and philosophy Epistemology of Modality and Philosophical Methodology will be of interest to researchers and advanced students working on the epistemology and metaphysics of modality as well as those whose work is concerned with philosophical methodology more generally

Social Work Theory and Methods Neil Thompson,Paul Stepney,2017-10-23 This gateway text lays the foundations for a thorough knowledge of the theory and methods that social workers need Pulling together the work of a team of experts this book uses the innovative theorizing practice approach rather than the traditional applying theory to practice approach thereby providing a much more satisfactory basis for understanding the relationship between theory and practice and making it easier for practitioners to employ theory in practice Part I sets the scene by examining the relationship between theory and practice how research can be used to inform practice and the important role of policy and organizational factors Part II provides 14 chapters each exploring a different theoretical approach All in all this book provides the ideal introduction to using social work theory and methods in practice

Handbook of the History and Philosophy of Mathematical Practice Bharath Sriraman, 2024-04-26 The purpose of this unique handbook is to examine the transformation of the philosophy of mathematics from its origins in the history of mathematical practice to the present It aims to synthesize what is known and what has unfolded so far as well as to explore directions in which the study of the philosophy of mathematics as evident in increasingly diverse mathematical practices is headed Each section offers insights into the origins debates methodologies and newer perspectives that characterize the discipline today Contributions are written by scholars from mathematics history and philosophy as well as other disciplines that have contributed to the richness of perspectives abundant in the study of philosophy today who describe various mathematical practices throughout different time periods and contrast them with the development of philosophy Editorial Advisory Board Andrew Aberdein Florida Institute of Technology USA Jody Azzouni Tufts University USA Ot vio Bueno University of Miami USA William Byers Concordia University Canada Carlo Cellucci Sapienza University of Rome Italy Chandler Davis University of Toronto Canada 1926 2022 Paul Ernest University of Exeter UK Michele Friend George Washington University USA Reuben Hersh University of New Mexico USA 1927 2020 Kyeong Hwa Lee Seoul National University South Korea Yuri Manin Max Planck Institute for Mathematics Germany 1937 2023 Athanase Papadopoulos University of Strasbourg France Ulf Persson Chalmers University of Technology Sweden John Stillwell University of San Francisco USA David Tall University of Warwick UK 1941 2024 This book with its exciting depth and breadth illuminates us about the history practice and the very language of our subject about the role of abstraction of proof

and manners of proof about the interplay of fundamental intuitions about algebraic thought in contrast to geometric thought. The richness of mathematics and the philosophy encompassing it is splendidly exhibited over the wide range of time these volumes cover from deep platonic and neoplatonic influences to the most current experimental approaches. Enriched as well with vivid biographies and brilliant personal essays written by and about people who play an important role in our tradition, this extraordinary collection of essays is fittingly dedicated to the memory of Chandler Davis, Reuben Hersch, and Yuri Manin. Barry Mazur, Gerhard Gade, University Professor, Harvard University. This encyclopedic Handbook will be a treat for all those interested in the history and philosophy of mathematics. Whether one is interested in individuals from Pythagoras through Newton and Leibniz to Grothendieck, fields, geometry, algebra, number theory, logic, probability, analysis, viewpoints from Platonism to Intuitionism, or methods, proof, experiment, computer assistance, the reader will find a multitude of chapters that inform and fascinate. John Stillwell, Emeritus Professor of Mathematics, University of San Francisco. Recipient of the 2005 Chauvenet Prize. Dedicating a volume to the memory of three mathematicians, Chandler Davis, Reuben Hersch, and Yuri Manin, who went out of their way to show to a broader audience that mathematics is more than what they might think is an excellent initiative. Gathering authors coming from many different backgrounds but who are very strict about the essays they write was successfully achieved by the editor in chief. The result, a great source of potential inspiration. Jean Pierre Bourguignon, Nicolaas Kuiper, Honorary Professor at the Institut des Hautes études Scientifiques.
