## **Social Service Delivery Systems An Agenda For Reform:**

*Social Service Delivery Systems* Cristián Aedo, Osvaldo Larrañaga, 1994 As Latin America undergoes a profound economic restructuring governments are redefining their roles not only in economic development but also in social services While governments throughout the region have funded education health and social security programmes the quality of social services is often far from satisfactory In addition rising public demand and limited resources have created constraints on social service funding and delivery Further aggravating the situation is the legacy of the crisis of the 1980s reduced social spending and an increased level of poverty in the region

**Globalization and the Future of the Welfare State** Miguel Glatzer, Dietrich Rueschemeyer, 2010-11-23 In the last quarter of the twentieth century the global political economy has undergone a profound transformation Democracy has swept the globe and both rich and developing nations must compete in an increasingly integrated world economy How are social welfare policies being affected by this wave of economic globalization Leading researchers explore the complex question in this new comparative study Shifting their focus from the more commonly studied established welfare states of northwestern Europe the authors of *Globalization and the Future of the Welfare State* examine policy development in the middle income countries of southern and eastern Europe Latin America Russia and East Asia Previous investigations into the effects of globalization on welfare states have generally come to one of two conclusions The first is that a global economy undermines existing welfare states and obstructs new developments in social policy as generous provisions place a burden on a nation's resources and its ability to compete in the international marketplace In contrast the second builds on the finding that economic openness is positively correlated with greater social spending which suggests that globalization and welfare states can be mutually reinforcing Here the authors find that globalization and the success of the welfare state are by no means as incompatible as the first view implies The developing countries analyzed in *Globalization and the Future of the Welfare State* demonstrate that although there is great variability across countries and regions domestic political processes and institutions play key roles in managing the disruptions wrought by globalization

**Pensions in Development** Roger Charlton, Roddy McKinnon, 2018-03-29 This title was first published in 2001 Challenging conventional approaches to the delivery of sustainable social protection to the elderly in developing countries DCs and assessing their implications this work discusses the appropriateness of the public management of funded systems in DCs with relatively large formal sectors The combination of social assistance approaches to social protection for the elderly facilitates the formation of an original unbiased pensions in development approach Arguing for expeditious implementation of non contributory tax or aid financed universal old age pensions provision in all DCs and advocating industry flexibility and inclusivity the book provides a treatment of a growing issue in worldwide development

**The Politics Of Linking Schools And Social Services** Louise Adler, Sid Gardner, 2002-11-01 From the time the reform movement began in the progressive era with concerns about public health and universal access to education arguments have

been raised for and against linking schools and social services and the merits or otherwise of each system A new argument for the collaboration is that integration will lead to substantially better services than those provided by separate organizations This volume brings together a wide array of cross national research and public policy issues to focus on a new framework of service provision It looks at the different networks of organizations of which schools and social services have been a part and at the political implications or results of bringing together the professionals from such organizations It takes into account the constraints resulting from the larger institutional network experience by such organizations The book also presents a range of perspectives on the way preparation is followed by four responses that present somewhat varying points of view The contributors come from a wide range of experiences including specialists in politics of education law urban studies children s issues and those providing reflections on practical experience *Social Development in Latin America* Joseph S. Tulchin, Allison M. Garland, 2000 This volume provides a wide ranging analysis of social welfare reform in Latin America examining in particular the politics involved in implementing difficult and controversial social policies that often pit the middle strata of society represented by powerful stakeholders against the poor *Development Policy*, 1992

**Introduction to Latin America** Peadar Kirby,2003-05-27 Introduction to Latin America provides a completely new introduction to the political social and economic forces shaping this essential region of undergraduate study today It is the first textbook to place Latin America within a genuinely global context and introduce the debates and impact of globalization neoliberalism democratization and the environment      **Sourcebook on the Foundations of Social Protection Delivery Systems** Kathy Lindert,Tina George Karippacheril,Inés Rodríguez Caillava,Kenichi Nishikawa Chávez,2020-10-29 The Sourcebook on the Foundations of Social Protection Delivery Systems synthesizes real world experiences and lessons learned of social protection delivery systems from around the globe It takes a broad view of social protection covering various intended populations such as poor or low income families unemployed workers persons with disabilities and individuals facing social risks It discusses many types of interventions that governments provide to individuals families or households including categorical programs poverty targeted programs labor benefits and services disability benefits and services and social services The Sourcebook seeks to address concrete how to questions including How do countries deliver social protection benefits and services How do they do so effectively and efficiently How do they ensure dynamic inclusion especially for the most vulnerable and needy How do they promote better coordination and integration not only among social protection programs but also among programs in other parts of government How can they meet the needs of their intended populations and provide a better client experience The delivery systems framework elaborates on the key elements of that operating environment The framework is anchored in core implementation phases along the delivery chain Key actors including people and institutions interact all along that delivery chain Those interactions are facilitated by communications information systems and technology This framework can apply to the delivery of one or many programs and to the delivery of adaptive social protection The Sourcebook structures itself around eight key principles that can frame the delivery systems mind set 1 There is no single blueprint for delivery systems but there are commonalities and those common elements constitute the core of the delivery systems framework 2 Quality of implementation matters and weaknesses in any of the core elements will negatively affect the entire system reducing the impacts of the program s they support 3 Delivery systems evolve over time in a nonlinear fashion and their starting points matter 4 Efforts should be made to keep it simple and to do simple well from the start 5 The first mile people s direct interface with administrative functions is often the weakest link in the delivery chain improving it may take systemic change but will greatly improve overall efficiencies and mitigate the risk of failures on the frontlines 6 Social protection programs do not operate in a vacuum and thus their delivery systems should not be developed in silos synergies across institutions and information systems are possible and can improve program outcomes 7 Social protection delivery systems can contribute more broadly to government s ability to serve other sectors such as health insurance subsidies scholarships social energy tariffs housing benefits and legal services 8 The dual challenges of

inclusion and coordination are pervasive and perennial and encourage the continuous improvement of delivery systems through a dynamic integrated and human centered approach      **Megatrends** ,1998      *Rebalancing Public Partnership*

John Brothers,2016-03-03 In the US as in many other Western economies federal and state government is working to become more involved with the nonprofit sector a sector in which many of the organizations are singularly ill prepared and strategically unaligned to fulfill the new role that is being asked of them Based on his original research John Brothers brings together leading thought leaders from the United States and around the world by exploring the prevailing attitudes and perceptions of the nonprofit sector towards government and vice versa and provides advice and direction to help both sides of the equation towards effective collaborative working The main themes cover the nature and implications of regulatory reform on the sector and how non government organizations should reengineer their practices There are also chapters on some of the hot button areas of government contracting and political advocacy The text includes best practice examples case studies as well as tools and templates from across the sectors Both sides of this emerging partnership need fast track education on each other s capabilities constraints and working practice Dr Brothers contributors provide some very valuable perspectives and insights that should inform and direct this process      **The Changing Face of Health Care Social Work, Fourth Edition** Sophia F.
