By examining the growth in individual rights, the public sphere, democratic processes and pluralization, the author seeks to answer questions concerning the relevance of liberal democratic ideas for China and the relationship between a democratic political culture and a democratic political system. The author also looks at the contradictory impulses and negative consequences for democracy generated by economic liberalism. Unresolved issues concerning the relationships among culture, democracy and socioeconomic development are at the heart of the analysis. Nonideological criteria are used to assess the success of the Chinese approach to building a fair, just and decent society.      **The Transformation of Chinese Socialism** Chun Lin, 2006 A significant contribution to both political theory and China studies, this volume provides a critical assessment of the past and future of Chinese socialism.

**China's Thought Management** Anne-Marie Brady, 2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and thought work since 1989, the CCP has managed to overcome a succession of local and national level crises: the Tiananmen Square protests of 1989, the impact of the collapse of Socialism in the Eastern bloc, SARS, ethnic clashes in Tibet and Xinjiang, to name but a few. Emerging and strengthened and as dominant in Chinese society as ever. The contributors to this book address such crucial issues as the new emphasis on economic propaganda, the continued importance of the PLA propaganda system in China's overall propaganda work and political stability, how the CCP uses Confucianism in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction. Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment. Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule, this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics.      **Handbook on Human Rights in China** Sarah Biddulph, Joshua Rosenzweig, 2019 This Handbook gives a wide-ranging account of the theory and practice of human rights in China, viewed against international standards and China's international engagements around human rights. The Handbook is organised into the following sections: contested meanings; international dimensions; economic and social rights; civil and political rights; rights in action; and access to justice; political dimensions of human rights in Greater China; and new frontiers.

**in China** Thomas Heberer, 2023-08-11 This book argues that a major part of the Chinese government's road map formulated in 2017 to modernise China comprehensively by 2049 is the process of social disciplining It contends that the Chinese state sees that modernisation and modernity encompass not only economic and political administrative change but are also related to the organisation of society in general and the disciplining of this society and its individuals to create people with modernised minds and behaviour and that moreover the Chinese state is aspiring to a modernity with Chinese characteristics The question of modernising by disciplining was extensively dealt with in the twentieth century by leading Western social

scientists including Max Weber Norbert Elias and Michel Foucault who argued that disciplining extending from external coercion towards the internalisation of restraints is indispensable for achieving social order and thereby for civilisation but defined from a European perspective in relation to developments in Europe This book therefore not only discusses the Chinese experience of social disciplining but also by looking at a non Western society identifies universal tendencies of societal change and social disciplining and separates them from particular occurrences Chinese Creator Economies Jian Lin,2023-05-23 An account of the paradoxical lives lived by creative professionals in contemporary China
