Smith, Lucian Lamar Knight, John Calvin Metcalf, 1910 **Military Law Review**, 2000 *The Carman*, 1918 **Defining America's Exceptionalism** Roger Anghis, 2012-08-30 Many pastors I have spoken with have no problem with the so called separation of church and state and have even told me that it was in our Constitution Because we no longer teach our Constitution in our schools and we the pastors do not teach the importance of who we are and where we came from we have come to the point where we believe what we are told by academia concerning our Founding Fathers and the Constitution and have been led down a path of falsehoods and deception It has been long said that if we forget who we are and where we came from we will not know who we are or where we are going There are many forces out there determined to remove all vestiges of our religious history Our Founding Fathers knew that there was to be involvement by the church and allowed the influence of Christianity to be prevalent The only separation of church and state that the founders wanted was an institutional separation They designed our Constitution so that the government would have no say whatsoever in the exercise of religion by the people Today's government has turned that around 180 degrees and is now using what used to guarantee freedom of religion to the removal of religion from the public square Will we let it continue It is now the choice of We the People

**George Washington, Entrepreneur** John Berlau, 2020-06-30 A business biography of George Washington focusing on his many innovations and inventions George Washington general statesman businessman Most people don't know that

Washington was one of the country's first true entrepreneurs responsible for innovations in several industries. In *George Washington Entrepreneur*, John Berlau presents a fresh, surprising take on our forefather's business pursuits. History has depicted Washington as a gifted general and political pragmatist, not an intellectual heavyweight. But he was a patron of inventors and an inveterate tinkerer and just as intelligent as Jefferson or Franklin. His library was filled with books on agriculture, history, and philosophy. He was the first to breed horses with donkeys to produce the American mule. On his estate, he grew countless varieties of trees and built a greenhouse full of exotic fruits, herbs, and plants. Unlike his Virginia neighbors who remained wedded to tobacco, Washington planted seven types of wheat. His state-of-the-art mill produced flour which he exported to Europe in sacks stamped G Washington, one of the very first branded food products. Mount Vernon was also home to a distillery and became one of the largest American whiskey producers of the era. Berlau's portrait of Washington, drawn in large part from his journals and extensive correspondence, presents a side of him we haven't seen before. It is sure to delight readers of presidential biography and business history.

**General George Washington** Edward G. Lengel, 2007-01-09. The most comprehensive and authoritative study of Washington's military career ever written. Joseph J. Ellis, author of *His Excellency: George Washington*. Based largely on George Washington's personal papers, this engrossing book paints a vivid, factual portrait of Washington the soldier. An expert in military history, Edward Lengel demonstrates that the secret to Washington's excellence lay in his completeness in how he united the military, political, and personal skills necessary to lead a nation in war and peace. Despite being an imperfect commander and at times even a tactically suspect one, Washington nevertheless possessed the requisite combination of vision, integrity, talents, and good fortune to lead America to victory in its war for independence. At once informative and engaging and filled with some eye-opening revelations about Washington, the American Revolution, and the very nature of military command, *General George Washington* is a book that reintroduces readers to a figure many think they already know. The book's balanced assessment of Washington is satisfying and thought-provoking. Lengel gives us a believable Washington, the most admired man of his generation by far. *The Washington Post Book World*. A compelling picture of a man who was the archetypal American soldier. The sum of his parts was the greatness of Washington. *The Boston Globe*. An excellent book, fresh insights. If you have room on your bookshelf for only one book on the Revolution, this may be it. *The Washington Times*.

**American Political Thought** Morton J. Frisch, Richard G. Stevens. The Second World War was a crisis not just for America but for the whole of Western Civilization, and in the wake of that war a new crisis arose which came to be called the Cold War. Just when that gave the appearance of being resolved, the world reached a new juncture, a new crisis which Samuel P. Huntington dubbed the clash of civilizations. The statesmen having political responsibility in confronting the first three crises in America's history came as close to philosophic grasp of the problems of liberal democracy as one could demand from those embroiled in the active resolution of events. Their reflection of political philosophy in the full sense
