Social Protection For Equity And Growth:

Social Protection as Development Policy Sarah Cook, Naila Kabeer, 2016-01-21 The Asian crisis of the late 1990s severely affected some of the most successful economies in the region placing the issue of social protection high on the regional and international agenda Subsequently growth rates revived but the fruits of growth have not been evenly distributed and inequality has risen Behind this trend lie deeply entrenched forms of poverty and social exclusion as well as new forms of vulnerability resulting from the liberalisation of markets and growing exposure to the global economy This volume deals with issues of poverty vulnerability and social exclusion in the Asian context The articles deal with different groups of vulnerable people exploring some of the characteristics of vulnerability in different contexts and reflecting on appropriate policy responses Collectively they emphasise a broad based systemic approach to the problems of vulnerability and insecurity where social protection needs to be rescued from its dominant current conceptualisation as a response to risk and crisis and instead be integrated into the mainstream of development policy This book will interest scholars of economics politics development studies development economics sociology social policy and South Asian studies **OECD Reviews of Labour Market and Social Policies: Chile 2009** OECD, 2009-04-06 This report analyses in detail the implications of recent developments in Chile's labour market and social policy and considers the available policy options from the perspective of OECD countries experience *Social Protection for Equity and Growth* Inter-American Development Bank, 2000 These groups often live near the subsistence level and lack the economic or political power to push for policies that can respond to their needs during times of crisis **BOOK JACKET Social Protection and Social Development** Julie L. Gender and Social Protection in the Developing World Rebecca Holmes, Nicola Jones, 2013-03-14 Millions of pounds of international development funds are invested annually in social protection programmes to tackle poverty Poverty is perpetuated by risk and vulnerability much of which is gendered Despite this little attention has been paid to gender sensitive policy and programme design and implementation Gender and Social Protection in the Developing World introduces a much needed gender lens to these debates Drawing on empirical evidence from poor households and communities in Africa Asia and Latin America the book provides rich insight into the effects of a range of social protection instruments It concludes that with relatively simple changes to design and with investment in implementation capacity social protection can contribute to transforming gender relations at the individual intrahousehold and community levels With a foreword by Stephen Devereux *Leading Issues in Competition, Regulation, and Development* Paul Cook, 2004-01-01 The promotion of liberalized and deregulated markets by bilateral and multilateral aid donors and by global institutions such as the WTO has led to significant attention being paid to competition and regulatory reforms in developing economies The process of reform involves the transfer and diffusion of market models derived from practice and theory in developed countries However in developing countries regulation needs to do more than simply promote competitiveness and consumer interests it also needs to ensure that the market nurtures development By rigorously examining the numerous impacts of regulation this book will help to fill a significant gap in the literature on economic and social development The book now available in paperback draws together contributions from leading experts across a range of disciplines including economics law politics and governance public management and business management The authors begin with an extensive overview of the issues of regulation and competition in developing countries and carefully illustrate the important themes and concepts involved Using a variety of country and sector case studies they move on to focus on the problems of applicability and adaptation that are experienced in the process of transferring best practice policy models from developed to developing countries The book presents a clear agenda for further empirical research and is notable for its rigorous exploration of the links between theory and practice Although there is substantial interest in competition and regulation as yet there has been relatively little investigation of these issues in developing economies This book redresses the balance and will be a valuable resource for researchers academics teachers and students interested in development economics and development studies It will also be of great relevance for practitioners and policymakers working in the fields of competition policy and regulatory reform

OECD,2011-04-04 To inform the current policy debate in Chile and present an economic assessment with concrete recommendations and policy options this report provides a detailed analysis of the overall Chilean economic situation *The Politics of Means and Ends* Dr Holger Bähr,2013-03-28 Policy instruments are techniques used to implement policy goals Subject to political conflict they address the relationship between those who govern and those who are governed Why do political actors choose certain policy instruments to implement policy goals Systematically comparing policy instruments employed in the European Union s environmental and social policy Holger Bähr develops a general theoretical framework to illustrate how policy makers prefer different types of policy instruments depending on the respective effect they wish to have on member state governments citizens consumers and producers He argues that institutions the politicisation of policy problems and external events constrain political actors and provide them with the opportunity to transfer their preferred policy instruments into policy outputs at the end of decision making
