

THE SOCIAL PSYCHOLOGY OF AGGRESSION

Thoroughly revised and updated, this third edition offers a comprehensive and up-to-date overview of the social psychology of aggression, covering all the relevant major theories, individual differences, situational factors, and applied contexts.

Understanding the causes, forms, and consequences of aggression and violence is critical for dealing with these harmful forms of social behaviour. Addressing a range of sub-topics, the first part deals with the definition and measurement of aggression, presents major theories, examines the development of aggression and discusses individual and gender differences in aggressive behaviour. It covers the role of situational factors in eliciting aggression and the impact of exposure to violence in the media. The second part examines specific forms and manifestations of aggression, including chapters on aggression in everyday contexts and in the family, sexual aggression, intergroup aggression, and terrorism. The new edition also includes additional coverage of gender differences, gun violence, and terrorism, to reflect the latest research developments in the field.

Also discussing strategies for reducing and preventing aggression, this book is essential reading for students and researchers in psychology and related disciplines, as well as practitioners and policy makers.

Barbara Krahe is Professor of Social Psychology at the University of Potsdam, Germany. She was awarded the German Psychology Prize for her work on aggression in 2015 and has served as President of the International Society for Research on Aggression.
