The Tolls of Uncertainty Sarah Damaske, 2021-05-25 An indispensable investigation into the American unemployment system and the ways gender and class affect the lives of those looking for work Through the intimate stories of those seeking work *The Tolls of Uncertainty* offers a startling look at the nation s

unemployment system who it helps who it hurts and what if anything we can do to make it fair Drawing on interviews with one hundred men and women who have lost jobs across Pennsylvania Sarah Damaske examines the ways unemployment shapes families finances health and the job hunt Damaske demonstrates that commonly held views of unemployment are either incomplete or just plain wrong Shaped by a person's gender and class unemployment generates new inequalities that cast uncertainties on the search for work and on life chances beyond the world of work threatening opportunity in America Following in depth the lives of four individuals over the course of their unemployment experiences Damaske offers insights into how the unemployed perceive their relationship to work She reveals the high levels of blame that women who have lost jobs place on themselves leading them to put their families needs above their own sacrifice their health and take on more tasks inside the home This guilt gap illustrates how unemployment all too often exacerbates existing differences between men and women Class privilege too gives some an advantage while leaving others at the mercy of an underfunded unemployment system Middle class men are generally able to create the time and space to search for good work but many others are bogged down by the challenges of poverty level unemployment benefits and family pressures and fall further behind Timely and engaging *The Tolls of Uncertainty* posits that a new path must be taken if the nation's unemployed are to find real relief

The Contextual Challenges of Occupational Sex Segregation Stephanie Steinmetz, 2011-12-15 This study untangles the complex interplay of individual and contextual factors shaping cross national differences in horizontal and vertical occupational sex segregation It relates the individual factors affecting occupational decisions to the broader social and economic context within a given society Following this approach Stephanie Steinmetz provides a comprehensive overview of the development and causes of cross national differences in occupational sex segregation She offers insights into the positioning of 21 EU Member States particularly of former CEE countries Based on advanced multi level models the study shows that institutional factors such as the organization of educational systems post industrial developments social policies and the national gender culture play a crucial role in shaping sex segregation processes apart from individual factors The author clarifies that a distinct set of institutional factors is relevant to each of the two dimensions of occupational sex segregation and that these factors operate in different directions some reduce horizontal segregation while at the same time aggravating the vertical aspect Finally the study assesses the empirical findings from a political perspective by addressing the future contextual challenges of EU Member States seeking to attain higher gender equality on the labour market

The American Class Structure in an Age of Growing Inequality Dennis Gilbert, 2020-09-03 *The American Class Structure in an Age of Growing Inequality* Eleventh Edition reveals how social class affects our everyday lives from who we marry and how we raise our kids to where we live and how we vote Dennis Gilbert emphasizes the socioeconomic core of the class system A major theme running through the book is the growing inequality in American society The author describes the shift beginning in the mid 1970s from an Age of Shared Prosperity to an Age of Growing Inequality Using fresh data on jobs wages

income wealth and poverty he measures the widening gap between the privileged classes and average Americans He repeatedly returns to the question Why is this happening Economic political and social factors are examined and the competing explanations of influential writers are critically assessed In the final chapter Gilbert synthesizes the book s lessons about the power of class and the forces behind growing inequality Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides

Gender, Education and Employment Hans-Peter Blossfeld, Jan Skopek, Moris Triventi, Sandra Buchholz, 2015-10-30 For much of the twentieth century women lagged considerably behind men in their educational attainment However in recent decades young women have become an important source of human capital for labor markets in modern societies as well as potential competitors to the male workforce This book asks whether or not women have been able to convert their educational success into gains on the labor market The expert contributors address the topic on a comparative level with discussions centred on gendered school to work transitions and gendered labor market outcomes Thereafter they analyze the country specific implications of the gender redress from a wide range of countries including the USA Russia and Australia This enlightening book will appeal to graduates and postgraduates studying social policy education the labor market inequality and gender It will also be of interest to experts in the fields of sociology education political science and economics and those interested in educational research
