Intimacy in postmodern times Peter Beilharz,2020-09-01 Zygmunt Bauman was one of the most important social theorists of recent decades He did major work on the Holocaust the postmodern and much else up to fifty eight books in English on almost as many topics In this book Australian sociologist Peter Beilharz Bauman s collaborator for thirty years recounts the details of their relationship simultaneously charting the changes that have occurred in academic life from the 1980s to today Friendship was one of the bonds that made Bauman and Beilharz s intellectual collaboration possible Though the two were worlds apart in terms of biography and place their work together was defined by a certain kind of intimacy Separated by a generation they collaborated for a generation together This book follows their story in touching detail while puzzling over Bauman s rich yet contested legacy

Re-sizing Psychology in Public Policy and the Private Imagination Mark Furlong,2016-09-07 This book interrogates the current reputation of Psychology both as an industry and as part of the academy It disputes Psychology s claim to be a science questions its claims to effectiveness and examines relationships with other disciplines and fields Just as Psychology s role in the design of addictive gaming machines has been underplayed so too has the conservative aspect of its regulation of normality and pathology The discipline of Psychology affects our understanding of identity and subjectivity to position the self as amoral and disconnected This book questions this assumption and more generally the received status of Psychology

Imaginaries of Modernity John Rundell,2016-12-01 This book offers a new perspective on the issue of modernity through a series of interconnected essays Drawing centrally on the works of Castoriadis Luhmann Heller and Lefort and in critical discussion with Weber Durkheim Simmel Adorno Habermas and Taylor the author argues that modernity is not only a unique historical creation but

also a multiple one With a focus on five broad themes the problem of understanding of modernity after the decline of grand narratives the complexity of the modern condition politics especially with reference to freedom and totalitarian regimes the variety and density of modern life and the centrality of a concept of culture to social and critical theory John Rundell advances the view that modernity is not the outcome of an evolutionary process or historical development but is unique and indeterminate as are the constitutive dimensions that can be identified as modern There are then different modernities A rigorous engagement with a range of prominent and contemporary social theorists Imaginaries of Modernity casts new light on the significance of understanding the multidimensional character of modernity and the plurality of its forms beyond the conventional paradigms associated with only the West As such it will appeal to scholars of social theory critical theory sociology and philosophy concerned with questions of culture politics and modernity Circling Marx: Essays 1980-2020 Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences **Work and Unseen Chronic Illness** Margaret Vickers, 2002-09-09 In an increasingly ageing society medicine hygiene and nutrition have reduced the impact of acute and life threatening illnesses However whilst we are living longer the chance of developing or contracting a chronic illness is increasing There are a growing number of working adults affected by chronic health conditions that may be largely invisible to those around them In this book the author explores the silent problem of unseen illness at work The author employs qualitative research methods to challenge the idea that if you look well you must be well While demonstrating the effectiveness of this controversial methodology she uses it to expose the voices of a group of marginalized workplace actors who have hitherto remained unheard Stories from people with cancer multiple sclerosis endometriosis and other illnesses are interspersed with the author's reflections about life and work with illness that others cannot see These stories reflect a passage of trauma and marginalization but also foreground themes of survival **Cross-Sector Leadership for the Green Economy** A. Marcus, P. Shrivastava, S. Sharma, 2016-01-18 Technology breakthroughs in sustainable renewable energy and energy conservation technologies require that there be a strong institutional ecosystem in place which supports innovation but the nature of this foundation and how it works is not well known Becoming a leader necessitates new forms of cross sector cooperation *Australian National Bibliography: 1992* National Library of Australia, 1988 **Civilizations in World Politics** Peter J. Katzenstein, 2009-09-10 A highly original and readily accessible examination of the cultural dimension of international politics this book provides a sophisticated and nuanced account of the relevance of cultural categories for the

analysis of world politics The book's analytical focus is on plural and pluralist civilizations Civilizations exist in the plural within one civilization of modernity and they are internally pluralist rather than unitary The existence of plural and pluralist civilizations is reflected in transcivilizational engagements intercivilizational encounters and only occasionally in civilizational clashes Drawing on the work of Eisenstadt Collins and Elias Katzenstein's introduction provides a cogent and detailed alternative to Huntington's This perspective is then developed and explored through six outstanding case studies written by leading experts in their fields Combining contemporary and historical perspectives while addressing the civilizational politics of America Europe China Japan India and Islam the book draws these discussions together in Patrick Jackson's theoretically informed thematic conclusion Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science

Liquid Sociology Mark Davis, 2016-05-13 Zygmunt Bauman's liquid sociology confronts the awesome task of reminding individual men and women that an alternative way of living together is within our eminent capabilities if only we start to think differently about our world The metaphor of liquidity which has become such a prominent feature of his writings since 2000 provides us with just such a new interpretation with a novel way of seeing Each chapter in this unique collection takes seriously Bauman's analysis of modernity as liquid throwing new light upon global social problems as well as opening up a space for assessing the nature of Bauman's contribution to sociology and for understanding what may be gained and lost by embracing an artistic sensibility within the social sciences With contributions from internationally renowned scholars this book will appeal to all those interested in Bauman's work especially within sociology social political and cultural theory and to anyone curious about the value of metaphor in interpreting the social world

Feminist Nationalism Lois West, 2014-01-21 Feminist Nationalism demonstrates how feminism is redefining nationalism by presenting case studies from Europe the Middle East Africa Asia and the Americas Consisting of social movements and cultural ideologies feminist nationalism links struggles for women's rights with struggles for group identity rights and or national sovereignty in their goals of self determination Many analyses of nationalism assume it is identical for women and men in its definition and operation This collection challenges that framework by placing women at the center and demonstrating how feminism is redefining nationalism both in particular cases and in the global context

Recommencing the Revolution Cornelius Castoriadis, 1992-12-01 **The Public Sphere** Alan McKee, 2005-02-21 What is happening to public debate in Western cultures Is our public sphere disintegrating In the face of popular tabloid newspapers new forms of reality television and an increasing lack of respect for traditional authorities many critics are concerned that our society no longer has a rational informed and unified space where everyone can communicate about the issues that affect us all In this book Alan McKee answers these questions by providing an introduction to the concept of the public sphere the history of the term and the philosophical arguments about its function By drawing on many examples from contemporary mediated culture McKee looks

at how we communicate with each other in public and how we decide whether changing forms of communication are a good thing for the public sphere *What is Feminism?* Chris Beasley, 1999-04-29 So what is feminism anyway Is it possible to make sense of the complex and often contradictory debates In this concise and accessible introduction to feminist theory Chris Beasley provides clear explanations of the many types of feminism She outlines the development of liberal radical and Marxist socialist feminism and reviews the more contemporary influences of psychoanalysis postmodernism theories of the body queer theory and the ongoing significance of race and ethnicity What is Feminism is a clear and up to date guide to Western feminist theory for students their teachers researchers and anyone else who wants to understand and engage in current feminist debates Critical Librarianship Samantha Schmehl Hines, David H. Ketchum, 2020-08-17 This book offers a timely mix of thought provoking chapters bringing together national and global studies on critical librarianship and conveying the kind of research which current library managers and researchers need mixing theory with a good dose of pragmatism
