Curran,1997-02-01 Charles E Curran presents the first in depth analysis of the origins of Catholic moral theology in the United States focusing on three significant figures in the late nineteenth century and demonstrating that methodological pluralism and theological diversity existed in the Church even then Curran begins by tracing the historical development of moral theology especially as presented in nineteenth century manuals of moral theology which offered a legal model of morality including a heavy emphasis on canon law He then probes the different approaches and ideas of three important writers Aloysius Sabetti a Jesuit who was a typical as well as the most influential American manualist Thomas J Bouquillon first chair of moral theology at Catholic University of America a neoscholastic who criticized the manuals approach as narrow and incomplete for failing to address principles virtues and the connection to systematic theology and clerical educator John B Hogan a casuist who developed a more inductive and historically conscious methodology Curran describes how all three men dealt in different ways with the increasing role of authoritative teachings in moral theology from the Vatican He also shows how they reflected their American context and the views of their own time on women and sexuality So little attention has been paid to the development of moral theology in this country that these authors are unknown to many scholars Curran s book corrects this oversight and proposes that the ferment revealed in their writings offers important lessons for

contemporary Catholic moral theology      Volume 19, Tome II: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies      Solidarity with the World Carolyn A. Chau, 2016-11-15 Is Christian mission even possible today In a secular age is it possible to talk about the goodness of God in a compelling way How should the church proceed Carolyn Chau explores the question of Catholic mission in a secular age through a constructive interpretation of the work of two celebrated Catholic thinkers philosopher Charles Taylor and theologian Hans Urs von Balthasar arguing that Taylor and Balthasar together offer a promising path for mission today Chau attends to Taylor's account of the conditions of belief today and the genesis of the sociohistorical limits on contemporary God talk as well as his affirmation of certain aspects of Western modernity's culture From Balthasar Chau sifts out the distinctiveness of his view of the human person as defined by mission and his encouragement of a kenotic self understanding of the church In the end Chau claims that if modern persons in secular Western societies are seeking fulfillment and integrity Christian spirituality remains a rich resource on offer      External Research List, 1958      The SAGE Handbook of Marketing Theory Pauline Maclaran, Michael Saren, Barbara Stern, Mark Tadajewski, 2009-12-04 Bringing together the latest debates concerning the development of marketing theory featuring original contributions from a selection of leading international authors this collection aims to give greater conceptual cohesion to the field by drawing together the many disparate perspectives and presenting them in one volume The contributors are all leading international scholars chosen to represent the intellectual diversity within marketing theory Divided into six parts the Handbook covers the historical development of marketing theory its philosophical underpinnings major theoretical debates the impact of theory on representations of the consumer the impact of theory on representations of the marketing organisation and contemporary issues in marketing theory      *Frontiers of Sociology* Peter Hedström, Björn Wittrock, 2009-01-31 The 37th World Congress of the IIS focused on theory and research at the forefront of sociology and the relationship between sociology and its neighbouring disciplines This volume constitutes a sustained effort by prominent sociologists and other social scientists to assess the current standing of sociology It is a stocktaking of the
