Socialism Now And Other Essays:

Socialism Now and Other Essays Anthony Crosland, 1974 Compilation of essays on questions facing the socialist political party in the UK and on socialist political opposition during the period from 1970 to 1973 to various government policy decisions covers housing policy environmental policy educational policy industrial policy etc References Socialism Now, and Other Essays. Anthony Crosland. Ed. by Dick Leonard Charles Anthony Raven Crosland, Dick Leonard, 1974

Egalitarian Thought and Labour Politics Nick Ellison, 2002-11-01 In *Egalitarian Thought and Labour Politics* Nick Ellison argues that the concept of equality is the cornerstone of the British socialist tradition He examines the alternative understandings of equality which have divided the labour party since 1930 and traces the origins of the current shift away from concern for social and economic equality to an increasing emphasis on liberty and individual entitlement *Egalitarian Thought and Labour Politics* is also concerned with contemporary attitudes within the Labour party discussing the importance of the concept to debates about citizenship and market socialism *The Struggle for Labour's Soul* Matt Beech, Raymond Plant, Kevin Hickson, 2004-08-02 Contributors ranging from Chancellor Gordon Brown to the Guardian newspaper's Polly Toynbee discuss the Labour Party's political philosophy and address key topics like globalization constitutional reform equality and the third way *Remaking the Labour Party* Tudor Jones, 2005-09-21 *Remaking the Labour Party* examines the development of revisionist thought in the Labour Party from the 1950s up to Tony Blair's successful attempt to rewrite Clause Four in April 1995 The main focus is upon the most distinctive and controversial aspect of Labour revisionism its attitude toward public ownership and socialism private ownership and the mixed economy *Remaking the Labour Party* comprises a detailed study of a process of ideological conflict which began with the Labour Party's debate in the 1950s over the link between public ownership and socialism The deepening confrontation that arose from the revisionist thinking of Crosland and Gaitskell is explored in the Clause Four controversy of 1959 60 and in the uneasy compromise forged in its aftermath The period of ideological truce under Harold Wilson's leadership is examined together with the bitter conflict that later resurfaced in the party during the 1970s and early 80s Finally the study focuses on the second stage of Labour's policy and ideological rethinking which developed after 1983 under the leadership first of Neil Kinnock and then of Tony Blair Drawing on the author's own interviews with some of the leading protagonists of the debate as well as upon a wide range of primary and secondary sources *Remaking the Labour Party* will be of value to students of modern British politics and political thought it will also be of interest to observers and members of the Labour Party **The IMF Crisis of 1976 and British Politics** Kevin Hickson, 2005-02-25 The 1976 IMF crisis was a seminal event in modern British political and economic history The seeds of the crisis were sown by the huge OPEC oil price shocks of 1972 3 leading to the potential meltdown of Britain's already weakened economy and seemingly confirming Britain's headlong decline as a major political and economic power The government was seen as going cap in hand to the International Monetary Fund IMF

to head off disaster an image which became a long lasting political icon Kevin Hickson has mined vital original source material including interviews with leading players to probe government economic thought and practice He questions much received wisdom especially that the crisis caused a basic shift to monetarist orthodoxy and right wing economic liberalism commonly known as Thatcherism and embraced by successive governments including New Labour **Peter Shore** Kevin Hickson, Harry Taylor, Jasper Miles, 2020-02-13 Peter Shore worked under Hugh Gaitskell serving in successive Labour Cabinets under first Harold Wilson and subsequently James Callaghan He wrote the 1964 1966 and 1970 general election manifestos for the party and stood in both the 1980 and the 1983 party leadership elections He would go on to be known as one of the Labour Party's most important thinkers He had a long political career at the upper levels of the Labour Party and was close to successive leaders Despite this he was also independent minded as evidenced by the 1976 IMF crisis and his long standing opposition to European integration As well as this key debate the authors also address crucial issues within the Labour movement from macroeconomic management to the extent to which the party can be a force for socialism This remarkable new study offers a comprehensive and timely reappraisal of the man and his record examining the context within which he operated his approach and responses to changing social and economic norms his opposition to Britain's membership of what is now the EU and how he was viewed by peers from across the political spectrum Finally it examines the overall impact of Peter Shore on the development of British politics With contributions from leading experts in the fields of political theory and from Shore's own contemporaries this book is an important new assessment of one of Labour's most interesting political thinkers in twentieth century British politics *Labour's First Century* Duncan Tanner, Pat Thane, Nick Tiratsoo, 2000-09-11 The Labour Party's centenary is an appropriate moment to evaluate its performance across the twentieth century and to reflect on why a party which has so many achievements to its credit nonetheless spent so much of the period in opposition Duncan Tanner Pat Thane and Nick Tiratsoo have assembled a team of acknowledged experts who cover a wide range of key issues from economic policy to gender The editors also provide a lucid accessible introduction Labour's First Century covers the most important areas of party policy and practice always placing these in a broader context Taken together these essays challenge those who minimize the party's contribution whilst they also explain why mistakes and weaknesses have occurred Everyone interested in British political history whether supporters or opponents of the Labour Party will need to read Labour's First Century **New Labour's Old Roots** Patrick Diamond, 2015-01-28 The New Labour project was not conjured up out of thin air it only looks that way because of the party's amnesia about the intellectual roots and political traditions which have guided it This book provides extracts from fifteen thinkers and politicians located within the revisionist tradition as an antidote to that amnesia It is an all star cast from R H Tawney Hugh Gaitskell and Anthony Crosland to Roy Hattersley Gordon Brown and Tony Blair The collection demonstrates that Labour's revisionism is not a rigid body of doctrine but a cast of mind that distinguishes between core values ends and policy instruments means revisionist

thinkers are engaged in the continuous pursuit of policy innovation never shrinking from abandoning policies that fail to achieve the desired ends All successful Labour governments have been determined to avoid the confusion of means and ends These essays show a determination throughout the party's history to debate and discuss political ideas in the cause of a fairer more equal society Fully updated and revised edition **Conservative Capitalism in Britain and the United States**

Raymond Plant, Kenneth Hoover, 2014-08-21 The shock waves of conservative advances have reached into every corner of American and British politics Parties of the right have prospered while parties of the left have stumbled retreated and are now regrouping The agenda for both right and left is set by the terms of the free market doctrines that have displaced the post war consensus politics of liberal capitalism This volume describes and challenges the ideological basis of the free market right Though critiques of the policies of the Reagan and Thatcher governments are hardly in short supply this major new study offers the most thorough and up to date analysis available No other book considers in such depth conservative ideas and policies on both sides of the Atlantic It provides the first clear account of the distinction between conservative and other forms of capitalism It also examines the fault lines dividing opposing camps within conservative capitalism and their consequences for domestic policy in Britain and the US Linking political theory and public policy it is one of the few critical appraisals of the New Right based on a clear understanding of what the arguments for the free market really are Finally the authors demonstrate what the left needs to learn from its failures how to remould its understanding of the relationship between politics and the market and how to recapture the lost initiative **Community Music** Lee Higgins, 2012-07-09 In

Community Music In Theory and in Practice Lee Higgins investigates an interventional approach to music making outside of formal teaching and learning situations Working with historical ethnographic and theoretical research Higgins provides a rich resource for those who practice advocate teach or study community music music education music therapy ethnomusicology and community cultural development James Edward Meade David Reisman, 2017-11-21 This book reviews James Meade's prolific contribution to economics and its lasting impact Few economists have written so much and on so many different topics Meade was awarded the Nobel Prize in Economics in 1977 jointly with Bertil Ohlin for his contribution to international economics but could just as easily have been awarded this for his contribution to the economics and politics of the managed economy His commitment to the middle ground neither free market nor command runs through the whole of his published work from Planning and the Price Mechanism in the shadow of post war rationing to The Intelligent Radical's Guide to Economic Policy and Full Employment Regained when inflation combined with stagnation reopened the debate between the monetarists and the Keynesians Meade was active in politics most prominently in the debates in the 1960s about the European Economic Community and in the 1980s on the formation of Britain's Social Democratic Party As a person he can best be described as a cultured Englishman quiet and open much in the mould of Coase Mirrlees or Hicks This book draws upon the whole of Meade's published work It incorporates insights from unpublished

papers and surviving correspondence kept at the London School of Economics and Political Science as well as interviews with family members and associates The book will be of interest to economists but also to the students of politics and philosophy that Meade himself would have wanted to reach

The Challenge of Politics Douglas W. Simon, Joseph Romance, Neal Riemer, 2018-12-27 This updated Sixth Edition of The Challenge of Politics enables you to see how the subfields of political science converge around a set of crucial questions such as Can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we bring political wisdom to bear on judgments about politics and public issues and Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Balancing lessons of classic and contemporary theory with contemporary politics and empirical study the book equips you with the tools you need to explore the impact of philosophy and ideology recognize major forms of government evaluate empirical findings and understand how policy issues directly affect people's lives This Sixth Edition includes a brand new chapter on American Politics and Government and updated content on recent international events

Engaging Enemies Simon Griffiths, 2014-10-09 Friedrich Hayek was a founding figure of the neo liberalism that flourished in the 1980s Yet despite his antagonistic relationship with socialism his work became a surprising source of inspiration for several influential thinkers on the left This book explains the left's unusual engagement with Hayek and reflects on its significance Engaging Enemies uses the left's late discovery of Hayek to examine the contemporary fate of socialism and social democracy Did socialism survive the twentieth century Did it collapse with the fall of the Berlin Wall as Hayek claimed Or did it transform into something else and if so what In turn this allows an examination of ideological and historical continuity Was the left's engagement with Hayek part of a wider break with a period of ideological continuity that marked the twentieth century but which did not survive its ending As such the book is also a study of how ideologies change with the times incorporating new elements and jettisoning others The left's engagement with Hayek was also influential on party politics particularly on the modernization of the Labour Party and the development of New Labour Engaging Enemies concludes with a discussion of the wider role of the market for the left today and the contemporary significance of the engagement with Hayek for Labour in the wake of the 2008 economic crisis

Unpopular Education CCCS, 2013-02-01 Published in the year 2006 Unpopular Education is a valuable contribution to the field of Media and Cultural Studies

The Next Welfare State? Christopher Pierson, 2021-09-30 COVID 19 has transformed the British welfare state The government has created millions of new beneficiaries spent tens of billions of pounds it doesn't have and created a mountain of public debt And yet when the crisis has passed we will be left with all the old problems of welfare and well being which we have systematically failed to address over the past 50 years In this book Christopher Pierson argues that we need to think quite differently about how we can ensure our collective well being in the future To do this he looks backwards to the welfare state's origins and development as well as forwards unearthing some surprising solutions in unexpected places

Equality and

the British Left Ben Jackson, 2013-07-19 The demand for equality has been at the heart of the politics of the Left in the twentieth century but what did theorists and politicians on the British Left mean when they said they were committed to equality How did they argue for a more egalitarian society Which policies did they think could best advance their egalitarian ideals Equality and the British Left provides the first comprehensive answers to these questions It charts debates about equality from the progressive liberalism and socialism of the early twentieth century to the arrival of the New Left and revisionist social democracy in the 1950s Along the way it examines and reassesses the egalitarian political thought of many significant figures in the history of the British Left including L T Hobhouse R H Tawney and Anthony Crosland Newly available in paperback for the first time this book demonstrates that the British Left has historically been distinguished from its ideological competitors on the Centre and the Right by a commitment to a demanding form of economic egalitarianism It shows that this egalitarianism has come to be neglected or caricatured by politicians and scholars alike and is more surprising and sophisticated than is often imagined Equality and the British Left offers a compelling new perspective on British political thought that will appeal to scholars and students of British history and political theory and to anyone interested in contemporary debates about progressive politics *Penguin Books and political change* Dean

Blackburn, 2020-11-12 Founded in 1935 by a young publisher disillusioned with the class prejudices of the interwar publishing trade Penguin Books set out to make good books available to all The Penguin Specials a series of current affairs books authored by leading intellectuals and politicians embodied its democratising mission Published over fifty years and often selling in vast quantities these inexpensive paperbacks helped to shape popular ideas about subjects as varied as the welfare state homelessness social class and environmental decay Using the Specials as a lens through which to view Britain's changing political landscape Dean Blackburn tells a story about the ideas that shaped post war Britain Between the late 1930s and the mid 1980s Blackburn argues Britain witnessed the emergence and eclipse of a meritocratic moment at the core of which was the belief that a strong relationship between merit and reward would bring about social stability and economic efficiency Equal opportunity and professional expertise values embodied by the egalitarian aspirations of Penguin's publishing ethos would be the drivers of social and economic progress But as the social and economic crises of the 1970s took root many contemporary thinkers and politicians cast doubt on the assumptions that informed meritocratic logic Britain's meritocratic moment had passed

Ideological Heritage Vol 2 William Howard Greenleaf, 2013-10-08 First Published in 2004 This study of the British Political Tradition will be complete in four volumes of which The Ideological Heritage is the second This is an attempt to show how the basic tension between libertarianism and collectivism is reflected in arguments of state how our three main political doctrines have both stimulated and reacted to the growth of government intervention and the proliferation of public agency and how they have dealt with the problems of individual liberty involved **The Grand**

Delusion Stephen Haseler, 2012-05-30 In 2012 Britain and the Commonwealth celebrate the 60th anniversary of Elizabeth II

s accession to the throne The royal family have overcome a number of obstacles in its recent history yet today it appears to be riding on a wave of popular affection But has Elizabeth II s reign been a good thing for the UK Or have the style rituals and underlying culture of the modern monarchy held Britain back from its potential in the 21st century world In this groundbreaking and thought provoking new book Stephen Haseler argues that the class structure which the monarchy has continued to encourage has retained outdated yet seemingly entrenched attitudes which have negatively affected Britain s economy capacity to innovate and international stature He provides an alternative political and social history of modern Britain which will be a provocative yet entertaining and informative read in the Queen s anniversary year

Immerse yourself in the artistry of words with Crafted by is expressive creation, **Socialism Now And Other Essays** . This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
