Socialization To Old Age:

Socialization to Old Age Irving Rosow, 2018-09-04 The prevailing wisdom in gerontology is that people routinely adjust to old age just as they adjust to earlier life stages But aging presents unusual circumstances and the transition processes that typify earlier passages fail to operate in the customary way The reasons for this are the subject of this book Its basic thesis is clear unlike other status changes in American life people are not effectively socialized to old age Irving Rosow shows that there is virtually no role for the elderly the norms for them are weak and they are subject to negligible socializing forces He argues that America has only a minor stake in older people and their place in society almost certainly because of the reduced responsibilities of the elderly and the limited consequences of their actions Rosow considers solutions in the form of alternatives for socialization within our present institutional structure This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 *Socialization to Old Age* Irving Rosow, 1977-01-01 *Aging in a Changing Society* James A. Thorson, 2000 This text with its friendly narrative style assumes no prior knowledge of gerontology sociology or psychology and so solidly serves its purpose as an overview of the field *Handbook of Life-Span Development* Karen L. Fingerman, 2011 Print CourseSmart [Mood and Cognition in Old Age](#) Lia Fernandes, Huali Wang, 2018-11-30 Improving psychological well being and cognitive health is now listed as the priority on the healthy aging agenda Depression and cognitive impairment are great challenges for the elderly population There have been numerous studies on depression and cognitive impairment and dementia However the neural correlates of depression and cognitive impairment have not yet been elucidated With the development of neuroscience and relevant technologies studies on anatomical and functional neural networks neurobiological mechanisms of mood and cognition in old age will provide more insight into the potential diagnosis prevention and intervention in depression and cognitive impairment For example longitudinal neuroimaging studies depicting the trajectories of patterns of structural and functional brain networks of mild cognitive impairment may provide potential imaging markers for the onset of dementia Population based studies have addressed the potential interaction between mood and cognitive impairment in old age However there are few studies to explore the potential neural mechanism of the relationship between depression and cognitive impairment in old age In all of this process the contribution of multiple biological events cannot be neglected particularly the underlying influence of chronic diseases and concomitant polymedication as well as the geriatric conditions like frailty frequently present in this elderly population which also compromise the cognitive function and mood determining depression and conducing to worse outcomes with more morbidity and mortality [Old and Alone](#) Jeremy Tunstall, 2024-05-10 Originally published in 1966 this was the first full length study by a sociologist of isolation in old age Although the majority of old

people were in no sense a problem group at the time a substantial minority of the elderly were alone in one or more ways About 1 3 million people aged 65 and over in Britain lived alone **Inequality And Old Age** John A Vincent,2003-09-02 An analysis of ageing in relation to identity formation inequality and stratification The book outlines a theory of social inequality which encompasses those inequalities associated with old age in addition to class gender race and ethnicity This book is intended for undergraduate and postgraduate sociology courses in social stratification and social theory as well as students and researchers in social policy social welfare and health with an interest in the study of ageing Being and Becoming Old Jon Hendricks,2019-05-20 How does aging affect the interaction between people and their social environment This intriguing book examines that question from various perspectives exploring in detail the social and psychological dimensions of the aging process Drawing on the insights of many disciplines articles investigate such issues as subjectively evaluated age facts influencing adjustment and attitudes projections and perceptions of competence **Old Age in Modern Society** Christina R. Victor,2013-11-11 Old age is a part of the lifecycle about which there are numerous myths and stereotypes To present an overstatement of commonly held beliefs the old are portrayed as dependent individuals characterized by a lack of social autonomy unloved and neglected by both their immediate family and friends and posing a threat to the living standards of younger age groups by being a burden that consumes without producing Older people are perceived as a single homogeneous group and the experiment of ageing characterized as being the same for all individuals irrespective of the diversity of their circumstances before the onset of old age In this book detailed statistical material is used to portray the circumstances of older people in modern society in an attempt to evaluate the appropriateness or otherwise of the major stereotypes of later life This volume does not address ageing from a psychological or micro social perspective In particular we do not explore major issues relating to old age Rather we feel that from the extensive collection of surveys concerned with the elderly we can provide a context within which individual elderly people can be studied from more anthropological or biographical perspectives Communication and the Aging Process Lois M. Tamir,2013-10-22 Communication and the Aging Process Interaction throughout the Life Cycle focuses on the process of development from infancy through old age particularly noting the value of communication social interaction and social networks The manuscript first offers information on development throughout the life cycle as well as models of development crisis and change and methodology The text then discusses communicative interaction and origins of communication including interpersonal cognition social interaction caretaker child interaction communication between children and language development The book surveys adolescence and adulthood psychological characteristics of the aged and social world of the aged Personality and morale retirement and widowhood attitudes toward the aged and norms and rules are discussed The manuscript also takes a look at the social networks of the aged and communicative interaction and the aged Concerns include family neighbors friends misperceptions between generations and thought process and communication The text is a vital source of data for readers interested in the
