*The Performance of Socially Responsible Investment Funds in Europe* Eva Maria Kreibohm, 2016-11-30 Socially responsible investing SRI is an investment approach that combines investors financial as well as nonfinancial goals in the security selection process Technically investors can engage in SRI either by directly investing in companies that implement corporate social activities or by investing their money in SRI funds which apply screening criteria to select securities The screening process applied by the SRI funds has led to controversy among academics regarding whether the use of SRI screens in the security selection process influences the financial performance of the funds The empirical study analyzes whether or not the screening process applied by such funds influences their financial performance Previous research mostly has focused on analyzing the performance of SRI equity funds established in the United States The study at hand not only includes SRI equity funds but also SRI balanced and fixed income funds established in Europe the biggest market for SRI globally The study provides unexpected results that are not only of interest for investors who want to get a better understanding of the effect on the financial performance of their portfolios in case SRI funds are added The results are also relevant for SRI fund managers who are interested in promoting their funds and attracting new investors and for academics whose research interests are e g located in the fields of SRI fund portfolio performances and market efficiencies

Ethics and Socially Responsible Investment Dr William Ransome, Professor Charles Sampford, 2013-02-28 This volume breaks new ground by approaching Socially Responsible Investment SRI as an explicitly ethical practice in financial markets The work explains the philosophical and practical shortcomings of long term shareholder value and the origins and conceptual structure of SRI and links its pursuit to both its deeper philosophical foundations and the broader multi dimensional global movement towards greater social responsibility in global markets Interviews with fund managers in the Australian SRI sector generate recommendations for better integrating ethics into SRI practice via ethically informed engagement with invested companies and an in depth discussion of the central practical SRI issue of fiduciary responsibility strengthens the case in favour of SRI The practical and ethical theoretical perspectives are then brought together to sketch out an achievable ideal for SRI worldwide in which those who are involved in investment and business decisions become part of an ethical chain of decision makers linking the ultimate owners of capital with the business executives who frame advocate and implement business strategies In between there are investment advisors fund managers business analysts and boards The problem lies in the fact that the ultimate owners are discouraged from considering their own values or even their own long term interests whilst the others often look only to short term interests The solution lies in the latter recognising themselves as links in the ethical chain

Socially Responsible International Business Leonidas C. Leonidou, Constantine S. Katsikeas, Saeed Samiee, Constantinos N. Leonidou, 2019 Acting in a socially responsible manner has become a crucial

success factor for many international firms due to the highly complex competitive and volatile global environment in which they operate This book will contribute new ideas contemporary knowledge and original research to the area of socially responsible international business and offers challenging directions for future research Topic covered range from global environmental influences on acting in a socially responsible way foreign buyer reactions to responsible business and international market targeting to development of socially responsible international business strategies      *Culturally and Socially Responsible Assessment* Catherine S. Taylor, Susan Bobbitt Nolen, 2022 This book addresses a problem that affects the work of all educators how traditional methods of assessment undermine the capacity of schools to serve students with diverse cultural and social backgrounds and identities Anchored in a commonsense notion of validity this book explains how current K 12 assessment practices are grounded in the language experiences and values of the dominant White culture It presents a timely review of research on bias in classroom and large scale assessments as well as research on how students level of engagement influences their performances The author recommends practices that can improve the validity of students assessment performances by minimizing sources of bias using culturally responsive assessment tools and adopting strategies likely to increase students engagement with assessment tasks This practical resource provides subject specific approaches for improving the cultural and social relevance of assessment tools and offers guidance for evaluating existing assessment instruments for bias language complexity and accessibility issues Book Features Research based recommendations for improving assessment fairness validity and cultural social relevance Practices that have been shown to improve the effectiveness of classroom assessments in supporting student learning Concrete examples of how to create culturally relevant assessment tasks that target valued learning goals in language arts mathematics social studies and science classrooms Appendixes that provide tools educators can use to improve grading practices
