Society And Puritanism In Pre Revolutionary England

J. C. Davis

Society And Puritanism In Pre Revolutionary England:

Society and Puritanism in Pre-revolutionary England Christopher Hill,2018-09-25 How Puritanism made modern Britain In order to understand the English Revolution and Civil War it is essential to get a grasp on the nature of Puritanism In this classic work of social history Christopher Hill reveals Puritanism as a living faith one responding to social as well as religious needs It was a set of beliefs that answered the hopes and fears of yeomen and gentlemen as well as merchants and artisans in a time of tribulation and extraordinary turbulence Over this period Puritanism was interwoven into daily life Here Hill looks at how rituals and practices such as oath taking the Sabbath bawdy courts and poor relief offered a way to bring order to social upheaval He even offers an explanation for the emergence of the seemingly paradoxical figure of the age the Puritan revolutionary Society and Puritanism in Pre-revolutionary England Christopher Hill,1997 Christopher Hill suggests that there might have been non theological reasons for supporting the Puritans or for being a Puritan He shows Puritanism as a living faith answering the hopes and fears of yeoman and gentleman merchants and artisans Society and Puritanism in Pre-revolutionary England Christopher Hill,1972 Society and Puritanism in Pre-Revolutionary England Christopher Hill, 1964

Society and Puritanism in Pre-revolutionary England John Edward Christopher Hill,1969 Society and Puritanism in Pre-revolutionary England Christopher Hill,2018-09-25 How Puritanism made modern Britain In order to understand the English Revolution and Civil War it is essential to get a grasp on the nature of Puritanism In this classic work of social history Christopher Hill reveals Puritanism as a living faith one responding to social as well as religious needs It was a set of beliefs that answered the hopes and fears of yeomen and gentlemen as well as merchants and artisans in a time of tribulation and extraordinary turbulence Over this period Puritanism was interwoven into daily life Here Hill looks at how rituals and practices such as oath taking the Sabbath bawdy courts and poor relief offered a way to bring order to social upheaval He even offers an explanation for the emergence of the seemingly paradoxical figure of the age the Puritan revolutionary

Society and Puritanism in Pre-revolutionary England John Edward Christopher Hill (historicus),1966 The Intellectual Revolution of the Seventeenth Century (Routledge Revivals) Charles Webster,2012-10-12 Intellectual history and early modern history have always occupied an important place in Past and Present First published in 1974 this volume is a collection of original articles and debates published in the journal between 1953 and May 1973 dealing with many aspects of the intellectual history of the seventeenth century Several of the contributions have been extremely influential and the debates represent major standpoints in controversies over genesis of modern ideas Although England is the focus of attention for most of the contributors their themes have wider significance Among the topics covered in the collection are the political thought of the Levellers and of James Harrington radical social movements of the Puritan Revolution the ideological context of physiological theories associated with William Harvey the relationship between science

and religion and the social relations of science and the function of millenariansim and eschatology in the seventeenth century The editor's Introduction indicates the context in which the articles were composed and provides valuable bibliographical information about the subjects discussed **Puritan Boston and Quaker Philadelphia** E. Digby Baltzell,2017-07-28 Based on the biographies of some three hundred people in each city this book shows how such distinguished Boston families as the Adamses Cabots Lowells and Peabodys have produced many generations of men and women who have made major contributions to the intellectual educational and political life of their state and nation At the same time comparable Philadelphia families such as the Biddles Cadwaladers Ingersolls and Drexels have contributed far fewer leaders to their state and nation From the days of Benjamin Franklin and Stephen Girard down to the present what leadership there has been in Philadelphia has largely been provided by self made men often like Franklin born outside Pennsylvania Baltzell traces the differences in class authority and leadership in these two cites to the contrasting values of the Puritan founders of the Bay Colony and the Quaker founders of the City of Brotherly Love While Puritans placed great value on the calling or devotion to one s chosen vocation Quakers have always placed more emphasis on being a good person than on being a good judge or statesman Puritan Boston and Quaker Philadelphia presents a provocative view of two contrasting upper classes and also reflects the author's larger concern with the conflicting values of hierarchy and egalitarianism in American history

Utopia and the Ideal Society J. C. Davis, 1983-07-28 This text provides a major study for all those working in the fields of 16th and 17th century political and social thought The Matter of Revolution John Rogers, 2018-09-05 John Rogers here addresses the literary and ideological consequences of the remarkable if improbable alliance between science and politics in seventeenth century England He looks at the cultural intersection between the English and Scientific Revolutions concentrating on a body of work created in a brief but potent burst of intellectual activity during the period of the Civil Wars the Interregnum and the earliest years of the Stuart Restoration Rogers traces the broad implications of a seemingly outlandish cultural phenomenon the intellectual imperative to forge an ontological connection between physical motion and Social Welfare in Western Society Gerald Handel, 2009-01-01 Social welfare has a three thousand year political action history in Western society This book offers a sociological framework that provides conceptual order to the countless details of that history while highlighting its essentials Social welfare in all its forms is based on one central concept help But there are many versions of help and multiple debates about those versions. The outcomes of some debates have led to withholding help and these outcomes are an inescapable part of this domain in the past and in the present The major versions their development and the debates are carefully examined in this volume Social Welfare in Western Society argues that in history five basic concepts of help have emerged These five explored and developed are charity based on a relationship between private donors and recipients public welfare based on a relationship between the state and its recipients social insurance based on a relationship between the state and beneficiaries of its programs social service based on people skilled in

interaction providing skill based time to their clients mutual aid groups sometimes misleadingly called self help groups whose members are simultaneously helpers and those helped There are multiple versions of each of these five concepts now usually referred to as social policy issues. There are fierce disagreements about what is helpful and which supposed forms of help are harmful to the wider society The book concludes that major debates have centered and continue to center around these major issues Should the poor be helped or punished Who is to blame Do the poor have the same rights as other people Who should pay Who should decide What is the effect of receiving welfare on incentive to work Who should be helped This is a masterful text designed for professional and public reading Gerald Handel is professor emeritus of sociology at The City College and The Graduate Center City University of New York He is the author of Making a Life in Yorkville Experience and Meaning in the Life Course Narrative of an Urban Working Class Man editor of Childhood Socialization and co editor of The Psychosocial Interior of the Family all published by Transaction Publishers Reformation to Revolution Margo Todd, 2002-01-31 Few periods of English history have been so subject to revisionism as the Tudors and Stuarts This volume offers a full introduction to the complex historiographical debates currently raging about politics and religion in early modern England It draws together thirteen articles culled from familiar and also less accessible sources embraces revisionist and counter revisionist viewpoints combines controversial works on both politics and religion covers Tudor as well as early Stuart England includes helpful glossary explanatory headnotes and suggestions for further reading These carefully edited and introduced essays draw on the new evidence of newsletters and ballads and ritual as well as the more traditional sources to offer a new and broader understanding of this transformative era of English history The British Marxist Historians Harvey J. Kaye, 2022-09-30 The British Marxist Historians remains the first and most complete study of the founders of one of the most influential contemporary academic traditions in history and social theory In this classic text Kaye looks at Maurice Dobb and the debate on the transition to capitalism Rodney Hilton on feudalism and the English peasantry Christopher Hill on the English Revolution Eric Hobsbawm on workers peasants and world history and E P Thompson on the making of the English working class Kaye compares their perspective on history with other approaches such as that of the French Annales school and concludes with a discussion of the British Marxist historians contribution to the formation of a democratic historical consciousness The British Marxist Historians is an indispensable book for anyone interested in the intellectual history of the late twentieth century Children and Childhood in Western Society Since 1500 Hugh Cunningham, 2020-06-10 Updated to incorporate recent scholarship on the subject this new edition of Hugh Cunningham s classic text investigates the relationship between ideas about childhood and the actual experience of being a child and assesses how it has changed over the span of 500 years Through his engaging narrative Hugh Cunningham tells the story of the development of ideas from the Renaissance to the present revealing considerable differences in the way Western societies have understood and valued childhood over time His survey of parent child relationships uncovers evidence of

parental love care and in the frequent cases of child death grief throughout the period concluding that there was as much continuity as change in the actual relations of children and adults across these five centuries Since the book s first publication in 1995 the volume of historical research on children and childhood has escalated hugely and is testimony to the level of concern provoked by the dominance of the negative narrative that originated in the 1970s and 1980s A new epilogue revisits the volume from today s perspective analysing why this negative narrative established dominance in Western society and considering how it has affected historical writing about children and childhood enabling the reader to put both this volume and recent debates into context Supported by an updated historiographical discussion and expanded bibliography Children and Childhood in Western Society since 1500 remains an essential resource for students of the history of childhood the history of the family social history and gender history Proceedings of the British Academy Volume 130, Biographical Memoirs of Fellows, IV, 2005-12-22 Eleven obituaries of recently deceased Fellows of the British Academy Isaiah Berlin Christopher Hill Rodney Hilton Keith Hopkins Peter Laslett Geoffrey Marshall John Roskell Isaac Schapera Ben Segal John Cyril Smith and Richard Wollheim Puritans in Conflict J. T. Cliffe, 2020-11-05 Originally published in 1988 and the companion book to The Puritan Gentry covering the period of the Civil War the English republic and the Restoration of Charles II in 1660 this book gives an account of how the godly interest of the Puritans dissolved into faction and impotence The fissures among the Puritan gentry stemmed as the book shows from a conflict between their zeal in religion and the conservative instincts which owed much to their wealth and status Lawyers, Litigation & English Society Since 1450 Christopher Brooks, Michael Lobban, 1998-01-01 Legal history has usually been written in terms of writs and legislation and the development of legal doctrine Christopher Brooks in this series of essays roughly half of which are previously unpublished approaches the law from two different angles the uses made of courts and the fluctuations in the fortunes of the legal profession Based on extensive original research his work has helped to redefine the parameters of British legal history away from procedural development and the refinement of legal doctrine and towards the real impact that the law had in society He also places the law into a wider social and political context showing how changes in the law often reflected but at the same time influenced changes in intellectual assumptions and political thought Lawyers as a profession flourished in the second half of the sixteenth century and throughout the seventeenth century This great age of lawyers was followed by a decline in the eighteenth and early nineteenth centuries reflecting both a decline in litigation and the perception of the law as slow artificially complicated and ruinously expensive In Lawyers Litigation and Society 1450 1900 Christopher Brooks also looks at the sorts of cases brought before different courts showing why particular courts were used and for what reasons as well as showing why the popularity of individual courts changed over the years Old Age and the English Poor Law, 1500-1700 Lynn A. Botelho, 2004 Based on documents from two Suffolk villages this study examines the operation of the poor law and the individual effort the elderly poor needed to make to survive This study is a test case of the old poor law In

its exploration of the virtually unknown world of the aged poor in sixteenth and seventeenth century England it asks how the elderly poor managed to survive in a pre industrial economy and answers through focusing on the many factors that make up the experience of old age status health wealth and local culture in two Suffolk villages Botelho demonstrates that the poor law did not nor did it intend to provide complete support and she documents the individual efforts of the poor as they made their own old age arrangements drawing as heavily upon their own initiatives as upon charity and legislated relief LYNN BOTELHO is Associate Professor of History Indiana University of Pennsylvania
