## **Society State And Nation In Twentieth Century Europe:**

Society, State, and Nation in Twentieth-century Europe Roderick Phillips, 2006      A Social History of Twentieth- Century Europe Béla Tomka, 2013 A Social History of Twentieth Century Europe offers a systematic overview on major aspects of social life including population family and households social inequalities and mobility the welfare state work consumption and leisure social cleavages in politics urbanization as well as education religion and culture It also addresses major debates and diverging interpretations of historical and social research regarding the history of European societies in the past one hundred years Organized in ten thematic chapters this book takes an interdisciplinary approach making use of the methods and results of not only history but also sociology demography economics and political science Béla Tomka presents both the diversity and the commonalities of European societies looking not just to Western European countries but Eastern Central and Southern European countries as well A perfect introduction for all students of European history      *Europe in the Long Twentieth Century* Christoph Cornelissen, 2024-10-08 Thanks to their economic and military strength the European empires had achieved global supremacy by 1900 with large parts of the world under their dominance in the wake of colonial expansion This situation fuelled ideas of Europe's permanent almost natural global superiority especially among the middle classes However as early as the First World War such claims came under increasing pressure This volume explains the role played by modern nationalism and anti imperial movements the competition between different political orders changes in the economy and society and the great ideas and utopias Their interplay gave rise to enormously destructive forces in Europe From the Boer and Balkan wars before 1914 to the Yugoslav wars of the 1990s and the Ukraine war since 2022 they have produced a continuum of violence At the same time the great promise of political participation and social security is one of the constants of Europe's history in the long twentieth century Against this backdrop modern societies emerged whose values had moved far away from the older models Perceptions of the role of the sexes families and generations changed fundamentally In addition the major internal European migrations together with the global immigration that became increasingly significant after 1945 ensured that the ethnic profile of European societies changed considerably Europe in the Long Twentieth Century shows how on the one hand these different factors led to a Europeanisation of living and working conditions and at the same time how the political and economic integration of the countries of Europe progressed On the other hand it demonstrates how Europe's role in the global context changed fundamentally As much as the geopolitical provincialisation of Europe continued unabated Europeans were constantly searching for new ways to assert themselves throughout the long twentieth century The search continues      **A Social and Economic History of Twentieth-century Europe** Gerold Ambrosius, William H. Hubbard, 1989 This comprehensive single volume source of information on the social and economic transformations in Europe over the past hundred years fills a critical gap in our knowledge It examines population trends social structures and economic structures and offers an integrative overview of changes in both the

organization of the economy and the role of the state in economic management      *Social Justice in Twentieth-Century Europe* Martin Conway, Camilo Erlichman, 2024-03-07 Social justice has returned to the heart of political debate in present day Europe But what does it mean in different national histories and political regimes and how has this changed over time This book provides the first historical account of the evolution of notions of social justice across Europe since the late nineteenth century Written by an international team of leading historians the book analyses the often divergent ways in which political movements state institutions intellectual groups and social organisations have understood and sought to achieve social justice Conceived as an emphatically European analysis covering both the eastern and western halves of the continent *Social Justice in Twentieth Century Europe* demonstrates that no political movement ever held exclusive ownership of the meaning of social justice Conversely its definition has always been strongly contested between those who would define it in terms of equality of conditions or of opportunity the security provided by state authority or the freedom of personal initiative the individual rights of a liberal order or the social solidarities of class nation confession or Volk      **The**

*The State of Health* Geoffrey Campbell Cocks, 2012-01-12 The State of Health Illness in Nazi Germany explores and analyses the experience of illness in German society under National Socialism As is well known the Nazis mobilised medicine for purposes of racial cultivation and extermination What has been much less understood is that the experience of health and illness in the Third Reich also marked a crucial juncture in the history of the modern self and body in Germany and the West The secular and material

bourgeois self was a product of the industrial and commercial society Germany had become before Hitler The peculiarly rapid pace of social change in Germany combined with a series of military political and economic disasters after 1914 created an environment of heightened sensitivity and anxiety concerning the relationship between individual and community This historical environment also aggravated concerns about health and illness of the morbid mortal and sexual body and mind in which the modern self was lodged The racist policies of the Third Reich worsened popular anxiety over illness and health And while Nazism exploited popular longings for national community the modern self of material pleasure appetite and desire too would be prop as well as problem for the Hitler regime Drawing from the rich historical literature on modern Germany and the Third Reich as well as on previously unexamined primary sources from over forty archives The State of Health documents vital continuities and discontinuities in the history of modern Germany and the West up to and beyond the Nazi years In exploring the social medical and discursive spaces of health and illness in the Third Reich Geoffrey Cocks illuminates significant and fateful experiences in peace and war with medicine doctors and drugs work collaboration constraint and agency self and other persecution enslavement and extermination gender and sexuality pain injury madness and death and historical memory and amnesia

Modernist Fiction, Cosmopolitanism and the Politics of Community Jessica Berman, 2001-08-13 In *Modernist Fiction, Cosmopolitanism and the Politics of Community* first published in 2001 Jessica Berman argues that the fiction of Henry James Marcel Proust Virginia Woolf and Gertrude Stein engages directly with early twentieth century transformations of community and cosmopolitanism Although these modernist writers develop radically different models for social organization their writings return again and again to issues of commonality shared voice and exchange of experience particularly in relation to dominant discourses of gender and nationality The writings of James Proust Woolf and Stein she argues not only inscribe early twentieth century anxieties about race ethnicity nationality and gender but confront them with demands for modern cosmopolitan versions of community This study seeks to revise theories of community and cosmopolitanism in light of their construction in narrative and in particular it seeks to reveal the ways that modernist fiction can provide meaningful alternative models of community

*Eugenics and Nation in Early 20th Century*

*Hungary* M. Turda, 2014-03-25 In 1900 Hungary was a regional power in Europe with imperial pretensions by 1919 it was crippled by profound territorial social and national transformations This book chronicles the development of eugenic thinking in early twentieth century Hungary examining how eugenics was an integral part of this dynamic historical transformation

*Minority Nationalism and the Changing International Order* Michael Keating, John McGarry, 2001 Globalisation and regional integration are sometimes seen as the enemies of nationalism imposing a single economic cultural and political order This book argues that the process may open the way for the claims of stateless nations Historical Concepts

Between Eastern and Western Europe Manfred Hildermeier, 2007 More than a decade after the breakdown of the Soviet Empire and the reunification of Europe historiographies and historical concepts still stood very much apart This book talks about how there were no common efforts for joint interpretations and no attempts to reach a common understanding of central notions and concepts
