Sociology as a Skin Trade John O'Neill, 1991 An Invitation to Reflexive Sociology Pierre Bourdieu, Loïc J. D. Wacquant, 1992-07-15 Preface by Pierre Bourdieu Preface by Loïc J D Wacquant I Toward a Social Praxeology The Structure and Logic of Bourdieu's Sociology Loïc J D Wacquant 1 Beyond the Antinomy of Social Physics and Social Phenomenology 2 Classification Struggles and the Dialectic of Social and Mental Structures 3 Methodological Relationalism 4 The Fuzzy Logic of Practical Sense 5 Against Theoreticism and Methodologism Total Social Science 6 Epistemic Reflexivity 7 Reason Ethics and Politics II The Purpose of Reflexive Sociology The Chicago Workshop Pierre Bourdieu and Loïc J D Wacquant 1 Sociology as Socioanalysis 2 The Unique and the Invariant 3 The Logic of Fields 4 Interest Habitus Rationality 5 Language Gender and Symbolic Violence 6 For a Realpolitik of Reason 7 The Personal is Social III The Practice of Reflexive Sociology The Paris Workshop Pierre Bourdieu 1 Handing Down a Trade 2 Thinking Relationally 3 A Radical Doubt 4 Double Bind and Conversion 5 Participant Objectivation Appendixes Loïc J D Wacquant 1 How to Read Bourdieu 2 A Selection of Articles from *Actes de la recherche en sciences sociales* 3 Selected Recent Writings on Pierre Bourdieu *The Missing Child in Liberal Theory* John O'Neill, 1994-12-15 The Missing Child in Liberal Theory opens public discourse on what it is Canadians hold in common through their provision of civic assurances to children and families at risk John O'Neill presents a strongly worded critique of the dominant discourse of the market society He observes the link between duty free capitalism and minimal civic obligations This book calls for a covenant society where civility and reciprocity are underwritten by a second generation concept of the Canadian welfare state that will not abandon children to disastrous prospects in a market society Confronting the current call for a leaner and meaner response to global competitiveness O'Neill challenges concepts of liberalism and communitarianism In their place he proposes a covenant concept of state community and family assurances to derive from our common provision of a civic endowment that we undertake to sustain now and for future generations of Canadians O'Neill argues that if Canada is to survive as a national community capable of responding to the global market we must reaffirm the civic foundations of the state If we fail to do this we will not have a leaner society only a meaner one This society will be hostile to capitalism and socialism alike If we can rededicate the Canadian commons to the well being of the civic person Canada will contribute a model of survival and governance among the nations of the twenty first century *Critical Theory and Methodology* Raymond A. Morrow, David D. Brown, 1994-06-24 Critical Theory traces its roots from Marxism through the renowned Frankfurt School to a wide array of national and cultural traditions Raymond Morrow's book traces the history and outlines the major tenets of critical theory for an undergraduate audience He exemplifies the theory through an analysis of two leading social theorists Jürgen Habermas and Anthony Giddens Unique to this volume is the emphasis on the link between Critical Theory and empirical research and social science methodology often thought to be incompatible **The Perils of Patient Government** Joseph W. Lella, J.R. Bayne, J.Z. Csank, J. McKay, 2006-01-01 In 1964 the Senate Committee on

Aging reported that once admitted to an institution the veteran begins to show signs of social and physical degeneration a phenomenon that has not escaped the attention of clinicians social scientists veterans and other chronic care patients Assuming that social withdrawal in the institutional setting was avoidable and that a strictly medical model of chronic care was inappropriate Lella and his collaborators established a patient government project designed to give thirty elderly men in a large veterans hospital who suffered from various degrees of social withdrawal an opportunity to express their individuality and independence and to shape institutional decisions The Perils of Patient Government goes well beyond a description and analysis of the project's successful side a general improvement in the lives of the veterans on Ward 23 it also exposes and analyzes the project's failures portraying negotiation and conflict among change oriented and conservative staff of varying professional identities ideologies and career strategies While struggling over the idea and practice of patient self government nurses and other professionals did make progress but also set severe limits on what patients could achieve for themselves As well Lella's study tackles the larger question of how change affects organizations and institutions Lively and well written this is an enlightening work for students of gerontology and geriatrics for professionals and para professionals administrators and policy makers involved in chronic care and for researchers probing the fields of medical sociology and institutional organization

Writing the Body Politic Mark Featherstone, Thomas Kemple, 2019-08-08 This book brings together key essays from the career of social theorist John O Neill including his uncollected later writings focusing on embodiment to explore the different ways in which the body trope informs visions of familial economic personal and communal life Beginning with an exploration of O Neill s work on the construction of the biobody and the ways in which corporeality is sutured into social systems through regimes of power and familial socialisation the book then moves to concentrate on O Neill s career long studies of the productive body and the ways in which the working body is caught in and resists disciplinary systems that seek to rationalise natural functions and control social relations The third section considers O Neill s concern with the ancient early modern and psychoanalytic sources of the post modern libidinal body and a final section on the civic body focuses specifically on the ways in which principles of reciprocity and generosity exceed the capitalist individualist body of neo liberal political theory The volume also includes an interview with O Neill addressing many of the key themes of his work a biographical note with an autobiographical postscript a select bibliography of O Neill s many publications and an extensive introduction by the editors A challenging and innovative collection *Writing the Body Politic* A John O Neill Reader will appeal to critical social theorists and sociologists with interests in the work of one of sociology s great critical readers of classical and contemporary texts

Torturous Etiquettes Daniel Varndell, 2023-07-01 Etiquette as noted toastmaster Herbert V Prochnow once pointed out is knowing how to yawn with your mouth closed that is to spare the feelings of the other person one must stifle one s own To be polite therefore is to perform Onscreen closeups often reveal the effort that goes into maintaining that performance with a fleeting frown or a slight scowl an actor reveals the torture of mannered behavior In *Torturous Etiquettes* Daniel Varndell examines such gestures to reveal the difficulties of the social encounter Drawing on the history of etiquette the book deconstructs an array of examples from

classical and contemporary Hollywood and European cinema taking a close look at onscreen representations of rudeness ridiculing racist and sexist etiquettes hospitality table manners and more In doing so it reveals etiquette to be a persistent theme in cinema and questions the role it plays in either upholding or denying the basic humanity of others **Prisoner Litigation** Jim Thomas,1988 a brilliant investigation Thomas book not only is an excellent descriptive and interpretive analysis but it will surely provide the basis of further research on JHLs and jailhouse lawyering It presently stands as the definitive statement on the subject CONTEMPORARY SOCIOLOGY *Human Needs and Politics* Ross Fitzgerald,2016-06-21 Human Needs and Politics is a collection of papers that examines the intercorrelation between political trends and the fulfillment of society s human needs The title discusses the concepts of human needs wants and politics Next the selection details some theories that will shed light into the mechanisms of human needs politics interaction The text also reviews Maslow s hierarchy of needs along with Marx s opinion on human needs The book will be of great interest to political scientists sociologists and behavioral scientists Goffman's Legacy A. Javier Treviño,2003 Erving Goffman 1922 82 was arguably one of the most influential American sociologists of the twentieth century A keen observer of the interaction order of everyday life Goffman s books which have sold in the hundreds of thousands continue to be widely read and his concepts have permanently entered the sociology lexicon This volume consists of ten original essays all written by prominent Goffman scholars that critically assess Goffman s many contributions to various areas of study including functionalism social psychology ethnomethodology and feminist theory Interdisciplinary Phenomenology D. Ihde,Richard M. Zaner,2013-06-29 Historically philosophy has been the point of origin of the various sciences However once developed the sciences have increasingly become autonomous although often taking some paradigm from leading philosophies of the era As a result in recent times the relationship of philosophy to the sciences has been more by way of dialogue and critique than a matter of spawning new sciences This volume of the Selected Studies brings together a series of essays which develop that dialogue and critique with special reference to the insights of phenomenological philosophy Phenomenology in its own way has been interfaced with the sciences from its outset Perhaps the most widely noted relation due in part to Edmund Husserl s characterization of the beginning steps of phenomenology as a descriptive psychology has been with the various psychologies It is well known that the early Gestaltists were influenced by Husserl and later the Existential psychologies acknowledged the impact of Martin Heidegger and Jean Paul Sartre to mention but two philosophers And of course Husserl s lifetime concern for the foundations of logic and mathematics especially as these the former in particular were developed into a foundational theory of science has figured prominently in these dialogues 2 INTRODUCTION Less directly but more currently the impact of phenomenology upon the disciplines has begun to be felt in a whole range of the sciences The Frankfurt School Critique of Capitalist Culture Ronald Jeremiah Schindler,2019-05-23 First published in 1998 this volume is an impressive contradictory cultural phenomenon It addresses almost every existing contemporary school of thought whilst

belonging completely to none of them through an absence of external signifiers With remarkable erudition Ronald Schindler reveals to official society the truth about itself through explorations of areas including the origins of dialectical intelligence a metatheoretical reconstruction of Marxism Habermas historical materialism and hermeneutics and political visions for the universities

Transversal Rationality and Intercultural Texts Hwa Yol Jung, 2011-07-26 Winner of the 2012 Edward Goodwin Ballard Prize sponsored by the Center for Advanced Research in Phenomenology Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrisms including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures What is traditionally called comparative philosophy is not just a neglected branch of philosophy it is poised to radically transform the very conception of philosophy itself

Life Sentences Zohreh Bayatrizi, 2008-08-23 Death has popularly had the reputation of being the last of life's great mysteries a subject of speculation and as a foreboding event both inevitable and feared In Life Sentences Zohreh Bayatrizi examines the many concerted attempts from the last 350 years to strip death of its mystery and to order manage and transform it from an individualized and fatalistic event to a social phenomenon that allows intervention She examines the process that has caused death to be understood in five quasi biblical commandments thou shalt not die violently thou shalt not die prematurely thou shalt not kill thyself and thou shalt not die an undignified death so that thou shalt die an orderly death Beginning with John Graunt's Natural and Political Observations Made upon the Bills of Mortality 1662 considered the first book of statistics and philosopher Thomas Hobbes's declaration that society must minimize the greatest evil of unsanctioned violent deaths Bayatrizi traces the pivotal moments that have changed our understanding of death While illuminating the history of our increasingly rationalized understanding of death she also examines some of our most contradictory reactions to controversial topics such as suicide euthanasia suicide bombing collateral damage and how our moral values have been shaped by an understanding of the proper place of a well ordered death in modern society Both historically rigorous and vigorously engaged in contemporary debates Life Sentences will be of interest to anyone interested in how we deal with death before we die
