**Interdisciplinary Phenomenology** D. Ihde, Richard M. Zaner, 2013-06-29 Historically philosophy has been the point of origin of the various sciences However once developed the sciences have increasingly become autonomous although often taking some paradigm from leading philosophies of the era As a result in recent times the relationship of philosophy to the

sciences has been more by way of dialogue and critique than a matter of spawning new sciences This volume of the Selected Studies brings together a series of essays which develop that dialogue and critique with special reference to the insights of phenomenological philosophy Phenomenology in its own way has been interfaced with the sciences from its outset Perhaps the most widely noted relation due in part to Edmund Husserl's characterization of the beginning steps of phenomenology as a descriptive psychology has been with the various psychologies It is well known that the early Gestaltists were influenced by Husserl and later the Existential psychologies acknowledged the impact of Martin Heidegger and Jean Paul Sartre to mention but two philosophers And of course Husserl's lifetime concern for the foundations of logic and mathematics especially as these the former in particular were developed into a foundational theory of science has figured prominently in these dialogues

2 INTRODUCTION Less directly but more currently the impact of phenomenology upon the disciplines has begun to be felt in a whole range of the sciences

**Transversal Rationality and Intercultural Texts** Hwa Yol Jung, 2011-07-26 Winner of the 2012 Edward Goodwin Ballard Prize sponsored by the Center for Advanced Research in Phenomenology

Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrisms including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures What is traditionally called comparative philosophy is not just a neglected branch of philosophy it is poised to radically transform the very conception of philosophy itself

friendship as a communicative and pedagogical practice in society literature and politics He shows how subjectivity is shaken by its internal weakness once we move inside the structure of domination in politics gender and race      **The Missing Child in Liberal Theory** John O'Neill,1994-12-15 The Missing Child in Liberal Theory opens public discourse on what it is Canadians hold in common through their provision of civic assurances to children and families at risk John O'Neill presents a strongly worded critique of the dominant discourse of the market society He observes the link between duty free capitalism and minimal civic obligations This book calls for a covenant society where civility and reciprocity are underwritten by a second generation concept of the Canadian welfare state that will not abandon children to disastrous prospects in a market society Confronting the current call for a leaner and meaner response to global competitiveness O'Neill challenges concepts of liberalism and communitarianism In their place he proposes a covenant concept of state community and family assurances to derive from our common provision of a civic endowment that we undertake to sustain now and for future generations of Canadians O'Neill argues that if Canada is to survive as a national community capable of responding to the global market we must reaffirm the civic foundations of the state If we fail to do this we will not have a leaner society only a meaner one This society will be hostile to capitalism and socialism alike If we can rededicate the Canadian commons to the well being of the civic person Canada will contribute a model of survival and governance among the nations of the twenty first century
