Extended Heredity Russell Bonduriansky, Troy Day, 2020-04-14 Bonduriansky and Day challenge the premise that genes alone mediate the transmission of biological information across generations and provide the raw material for natural selection They explore the latest research showing that what happens during our lifetimes and even our parents and grandparents lifetimes can influence the features of our descendants Based on this evidence Bonduriansky and Day develop an extended concept of heredity that upends ideas about how traits can and cannot be transmitted across generations opening the door to a new understanding of inheritance evolution and even human health Adapted from publisher description

Ice Amy Brady, 2023-06-06 The unexpected and unexplored ways that ice has transformed a nation from the foods Americans eat to the sports they play to the way they live today and what its future might look like on a swiftly warming planet Ice is everywhere in gas stations in restaurants in hospitals in our homes Americans think nothing of dropping a few ice cubes into tall glasses of tea to ward off the heat of a hot summer day Most refrigerators owned by Americans feature automatic ice machines Ice on demand has so revolutionized modern life that it's easy to forget that it wasn't always this way and to overlook what aspects of society might just melt away as the planet warms In Ice journalist and historian Amy Brady shares the strange and storied two hundred year old history of ice in America from the introduction of mixed drinks on the rocks to the nation's first ever indoor ice rink to how delicacies like ice creams and iced tea revolutionized our palates to the ubiquitous ice machine in every motel across the US But Ice doesn't end in the past Brady also explores the surprising present day uses of ice in sports medicine and sustainable energy including cutting edge cryotherapy breast cancer treatments and new refrigerator technologies that may prove to be more energy efficient underscoring how precious this commodity is especially in an age of climate change
