Forgotten George C. Kyros, 2019-12-12 Greece fought a bitter civil war during the 1940s A great portion of the people supported the existing system of government with its king as the head of state The rest of them strove to eliminate the king and convert Greece into a communistic nation

Children between eight and fifteen years of age from northern Greece became victims of this madness. Thousands of them were rounded up by the communist faction and sent to camps behind the Iron Curtain. Fotis and Georgia, fifteen-year-old siblings, had lost their parents at the start of the war and were living under the care of one of their neighbors. They, along with forty-six other children from the same village, were rounded up by the leftist rebels and chaperoned to one of the many concentration camps in nations outside of Greece, within countries beyond the Iron Curtain. There they were cared for by strangers and taught the principles of communism. Three years later, the twins were separated from each other, and their divergent journeys of hardship and pain continued. The twins never gave up searching for each other, and at last their odyssey comes to a gripping and emotional conclusion.

The Voice of the Irish Michael Staunton, 2003

Religious beliefs and spiritual traditions have molded Ireland's past and present in spectacular ways. Ranging across a rich tapestry from early Celtic culture to the Christian missionaries from the Golden Age of monastic life to the diverse influence of the Vikings and the Normans, the Reformation, the wars of religion, to the people now engaged in the Peace Process, *The Voice of the Irish* offers a balanced account of the religious, social, and political life of the Irish. A sweeping history of faith in Ireland, it brings to life the island's people and events, including the legacy of pagan Celtic spirituality, the real and the legendary St. Patrick, the religious roots of English involvement in Ireland, the Famine, and new life in America, the origins of the Troubles in the North, and predicts a future between tradition and modernity.

Do You Sincerely Want to Be Rich? Charles Raw, Bruce Page, Godfrey Hodgson, 2005-05-17

In the fall of 1955, Bernard Cornfeld arrived in Paris with scant money in his pocket and a tenuous relationship with a New York firm to sell mutual funds overseas. Cornfeld, a former psychologist and social worker, knew how to make friends fast and soon targeted two groups of people who could help him fulfill his economic ambitions: American expatriates who were looking to build their own fortunes and servicemen abroad who loved to live high-rolling lives and spend money. Using the first group as door-to-door salesmen and the second group as his gullible target, Cornfeld built a multi-billion-dollar and multi-national company famous for its salesmen's winning one-line pitch: "Do you sincerely want to be rich?" In this eye-opening yet entertaining book, an award-winning *Insight* team of the *London Sunday Times* examines Cornfeld's impressive scheme, a classic example of good old-fashioned American business gumption and guile.
