Ever Against the Stream Frank Jehle, 2012-03-02 While there are numerous studies of Karl Barth's theology this is the first book to explore the political side of Barth's work throughout all the phases of his long life As Frank Jehle shows Barth's political views are not only found in his formal writings but were also made clear in his active life Jehle here portrays Barth as a courageous man who was deeply concerned about world conditions and cared about people who were suffering It was the question What will happen to humanity that led Barth at a young age to support the working class of his congregation to work as a resistance fighter against National Socialism and to openly oppose Switzerland's tendency to accommodate Hitler's policy He also supported Jews and other refugees a position that quickly made him political enemies Jehle looks at how Barth continued to draw ethical consequences out of Christian belief and shows how in today's political context Barth's perspectives still provide astounding clarity Deliberately written for a broad audience this book is a valuable contribution to the literature on Barth

Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting,1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious

Confessional Theology? Rothney S. Tshaka,2010-04-16 Christian confessions are usually seen as statements of faith which has no relationship with politics The result is a tendency to view these documents as theological but not political This study discusses this misconception but adds that although these documents are not to be perceived as political per se that they can nonetheless not ignore the political contexts from which they emerge Two confessional documents are discussed to illustrate the point viz the Barmen Theological Declaration 1934 in Nazi Germany as well as the Belhar Confession 1986 during apartheid South Africa The findings of the study is that the theology of Karl Barth and therefore the Belhar Confession establishes and unavoidable link between christian confessions and politics The word

confession is used here in relation to Barth's interpretation of our responsibility to speak about God because of the fact that we are Christian and also our inability to speak about God as if God is known in God's entirety to us. Seen in this way, confessional theology is opposed to tendencies that give the impression that we are able to speak about God as if we know Him in His entirety. Five characteristics in the theology of Barth are investigated. These characteristics illustrate the degree to which theology is related to politics. It also points to the fact that politics was never a marginal factor in the theological reflections of Barth. The study suggests that the theology of Barth remains relevant because it interprets the Word in a manner that does not ignore the contexts in which this interpretation of the Word takes place. The study furthermore suggests that the entire theology of Barth can be construed as confessional theology. It arrives at this end and makes very clear that confessional theology differs fundamentally from confessionism but that confessional theology always calls for those who espouse it to embody that which is confessed. To uphold the characteristics of confessional theology in the theology of Barth, it is agreed that his theology continued to play significant roles in different theological contexts. It is because of this view that it is argued that the theology of Barth had a great influence on the Belhar Confession. The debate around the Belhar Confession brings further important questions about the theological situation in South Africa today. In the end, it is suggested that confessional theology is a significant theological method which can safeguard theology from the claws of theologised politics. Confessional theology can thus make a significant contribution to the current theological debates in democratic South Africa.

From Psycho-Analysis to Culture-Analysis M. Dwairy, 2015-07-14 This book confronts the barriers that face the cross-cultural application of western psychotherapy. It puts forward an argument for applying culture analysis in which the therapist analyses the inconsistencies within the client's culture before applying psychoanalysis in which the analyst analyses the intra-psychic conflicts.
