China-Swiss Relations during the Cold War, 1949-1989 Cyril Cordoba, 2022-07-01 During the Cold War Switzerland functioned as a hub for Chinese propaganda networks Despite its fierce anti communism the Swiss Confederation was one of the first capitalist countries to recognise the People's Republic of China PRC As a neutral country and as the home base for many international organisations Switzerland represented a strategic centre for the spread of Maoism throughout the world Focusing on cultural diplomacy and questioning the notion of soft power this book explores how the PRC developed its influence and its prestige abroad through its Embassy in Bern the most important in Western Europe The book also discusses how China's approach in Switzerland bypassing traditional diplomatic structures and relying on contacts with individual people foreign friends was then used and continues to be used in many other countries including

uncertain about its future This title offers in depth analysis of Switzerland s domestic and European politics and policies It is also innovative in trying both to bring out the European roots of recent political changes in Switzerland and of the challenges these pose to the Swiss status quo and for the evolution of the EU and member states such as the United Kingdom This is a book for those interested in Switzerland academics business people diplomats journalists and political commentators
