Symbol of the Bull in Symbolic Mythology John Martin Woolsey, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Myths, Symbols and Legends of Solar System Bodies Rachel Alexander, 2014-11-04 This book is an amateur astronomer's guide to the mythology and symbolism associated with the celestial bodies in the Solar System and even includes some of the legendary tales of people who had or have a connection with these objects. It explores different cultures, for example the Greco-Roman and the Norse, and different times and how stories were used to explain the worlds they saw above them. You'd be amazed how much of our world today reflects the myths and stories of these cultures. Most amateur astronomers are familiar with the various Solar System objects, but they will be only peripherally aware of what ancient cultures thought of these other worlds. In fact, the mythology of the planets challenges many twenty-first-century concepts and beliefs. There are other books available on astromythology, but this one focuses mostly on our own Solar System as opposed to the constellations and deep sky objects. Alexander offers a new angle on timeless subjects and is exciting, informative, and dramatic as well as surprisingly relevant to everyday life. Find out for yourself how our modern world is steeped in the bygone worlds of yesteryear.

Myths and Symbols in Pagan Europe Hilda Roderick Ellis Davidson, 1988 **Symbolic Mythology and Translation of a Lost and Forgotten Language** John Martin Woolsey, 1917 Myths And Symbols Stephen D. Peet, 2012 Dr Peet is well known as a writer on American antiquities. He has gathered together from a great variety of sources much interesting and impressive material in regard to the religions of the aboriginal inhabitants of our country. It will be a surprise to the average reader as he peruses these interesting pages to see how elaborate was the religious belief and worship of the untutored races that preceded the era of civilization in America. There is much material in the book upon which to base theories as to the origin of the aboriginal inhabitants of the continent. There is poetic and romantic suggestion in abundance. The student of ethnology or of natural history or of theology and even the merely curious reader will find the book one of great interest. We can but admire the learning of the author and his diligence in research.
