

bear significant lexical and syntactical resemblances based on shared etymologies or a history of mutual borrowing, require the translator to dismantle, rearrange, and finally displace the chain of foreign signifiers. Three interlocking foreign-language contexts are lost. The first is intratextual and therefore constitutive of the foreign text, of its linguistic patterns and discursive structures, its verbal texture. The second is both intertextual (in the sense of relations to pre-existing texts) and interdiscursive (in the sense of relations to pre-existing forms and themes) yet equally constitutive, since it comprises the network of linguistic and discursive relations that renders the foreign text with significance for readers who have read widely in the foreign language.³ The third, which is also constitutive but simultaneously intertextual, interdiscursive, and intersubjunctive, is the context of reception, the various oral, print, and electronic media through which the foreign text continues to accrue significance when it begins to circulate in its original culture, ranging from paratextual elements (book jackets and advertisements, blurbs, and authors' photos) to commentary (periodical reviews and academic criticism, television interviews, and internet forums) to derivative works (editions, adaptations, anthology extracts). By 'constitutive', I mean that this triple context is necessary for the signifying process of the foreign text, for its capacity to support meanings, values, and functions which therefore never survive intact the transition to a different language and culture. Thus the notion of an equivalent effect — that a translation can produce for its reader an effect that is similar to or the same as the effect produced by the foreign text for the foreign-language reader — describes an impossibility: it ignores the manifold loss of contexts in any translation.⁴

Because of the decontextualising process, intertextual relations in particular cannot be reproduced merely by a close rendering of the words and phrases that establish those relations in the foreign text. Such a rendering, however close, may create a semantic correspondence, but it will not incorporate the specific cultural significance of a foreign intertext, the significance that derives from the recognition of a connection between the foreign text and another text in the foreign cultural tradition. For this significance depends not only on the denotative meanings of words and phrases, but on form, on resemblances among foreign linguistic features, graphemic and acoustic, lexical and syntactical, stylistic and discursive. To compensate for the loss of intertextuality, the translator might rely on paratextual devices, such as an introductory essay or annotations, which can be useful in restoring the foreign cultural context and in articulating the cultural significance of an intertextual relation as well as its linguistic basis. Yet in making such additions the translator's work ceases to be translating and becomes commentary. Moreover, not only does the translation acquire a typically academic form, potentially restricting its audience, but it fails to have the immediate impact on its reader that the foreign text produced on the foreign reader. An equivalent effect is again pre-empted.

Consider a passage that contains an especially dense node of intertextuality in David Mamet's play *Sexual Privacy in Chicago* (1974). In the opening exchange, Bernie tells Danny about a sexual encounter with a woman who insists on playing out a 'World War II scenario: she dons a 'Flak suit', a ripped garment designed to protect fighter pilots from bursting artillery shells, and she phones a friend whom she asks to mimic the noises of an anti-aircraft attack. A sexual act that initially seems

The Subversive Poetics of Alfred Jarry Marieke Dubbelboer, 2017-07-05 Paradox and provocation were essential features of all of the work of Alfred Jarry 1873 1907 His non conformist attitude whether employed to subvert literary or artistic conventions or to scrutinize social and political issues marked both his literary writing and his view of the world Nowhere is this more apparent than in the experimental and satirical Almanachs du Pere Ubu 1898 and 1901 which to date have received little critical attention Jarry's groundbreaking use of collage in these early works his absurdist humour and his rethinking of literary authorship and artistic originality foreshadow many innovations of twentieth century art and literature In this generously illustrated study Marieke Dubbelboer examines key characteristics of Jarry's poetics through an analysis of the Almanachs and addresses their role within the European avant garde **Subject Guide to Books in Print**, 2001

Bibliographic Index, 2008 **Symbolist Journals** Pamela Genova, 2023-08-31 This title was first published in 2002 In this title the author argues that in the pages of Symbolist journals the modern reader can unearth an other 19th century revealed as a creative realm in which writers allow themselves more artistic freedom than in their more formal literary creations In the journal they tested experimental theories composed offbeat poetic texts and offered their opinions on a vast array of cultural phenomena The aim of the book is to show that the Symbolist journals bear witness to a more personal erratic and innovative face of an aesthetic movement and a historical moment that have in many ways become clichéd The author also suggests that the development of interdisciplinarity in the Symbolist journals represents an influential aesthetic notion that went on to play a crucial role in 20th century artistic expression discernible in the schools of Modernism and Surrealism *The British National Bibliography* Arthur James Wells, 2002 **Rubén Darío y su vigencia en el siglo XXI** Jorge Eduardo Arellano, 2003 Forthcoming Books Rose Arny, 2002 *Jahresbibliographie Massenkommunikation*, 2002

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2004 National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities especially in multicultural East Central Europe the region between the German and Russian hegemonic cultural powers stretching from the Baltic states to the Balkans *History of the Literary Cultures of East Central Europe* which covers the last two hundred years reconceptualizes these literary traditions by de-emphasizing the national myths and by highlighting analogies and points of contact as well as hybrid and marginal phenomena that tra
